I. Open Forum:
- New Faculty: Jeff Warsinski asked if new faculty as access to META? Their department chairs or the DOI's needs to send the name, discipline and department informational meetings and what they that faculty is approved to review to either Brian Johnson or Nicole Brown so they can enter their information and login information into META and then email that faculty their access information. Nicole Brown stated that she hasn't received any information for new hires, so she will be emailing the DOI's for that information and then will be emailing those department chairs for the additional elements needed to set them up.
- First Friday's: Are we still providing that and when Brian Johnson hasn't been notified yet on whoever is in charge for that program, but he said he is willing to continue his part in educating new faculty on the curriculum process and META training. Brian Johnson will contact the PDC for an update.

Statement of Purpose

The curriculum committee, a sub-committee of the academic senate, has two primary purposes: to review and approve new curriculum including new courses, course modifications, new programs and program modifications, and to review and approve the curriculum approval process. The college curriculum committee is the sole approving body for Norco College only curriculum. For district shared curriculum it has one vote in the district curriculum committee. The curriculum committee is also responsible for keeping abreast with state mandated curriculum changes and reporting those changes to faculty. Committee members report on curriculum at their department meetings and solicit suggestions and recommendations when needed.
