FIELD	JOB DESCRIPTION	PROJECTED JOB GROWTH (2016 - 2026)	2017 MEDIAN SALARY	CA BACHELOR PROGRAMS	HBCU PROGRAMS	WUE PROGRAMS
Aerospace	<p>Aerospace engineers design, construct, test, and supervise the manufacturing of aircraft, spacecraft, and missiles. Those who work with aircraft are called aeronautical engineers, and those working specifically with spacecraft are called astronautical engineers. May conduct basic and applied research to evaluate adaptability of materials and equipment to aircraft design and manufacture. May recommend improvements in testing equipment and techniques.</p> <p>Sample of reported job titles: Aeronautical Engineer, Aerospace Engineer, Aerospace Stress Engineer, Avionics Engineer, Design Engineer, Flight Controls Engineer, Flight Test Engineer, Structural Analysis Engineer, Systems Engineer, Test Engineer.</p>	<p>United States 6% 4,200 openings</p> <p>California 9% 760 openings</p>	<p>United States \$113,030 per year \$54.34 per hour</p> <p>California \$119,930 annual \$57.66 per hour</p>	CPP CPSLO CSULB SDSU SJSU UCD UCI UCLA UCSD CBU - minor USC	Tuskegee University Univ. of MD Eastern Shore	New Mexico State University
Agricultural	<p>Agricultural engineers apply knowledge of engineering technology and biological science to agricultural problems concerned with power and machinery, electrification, structures, soil and water conservation, and processing of agricultural products.</p> <p>Sample of reported job titles: Agricultural Engineer, Agricultural Safety and Health Program Director, Agricultural Systems Specialist, Conservation Engineer, Engineer, Product Engineer, Product Technology Scientist, Project Engineer, Research Agricultural Engineer, Research Leader development to improve conservation, etc.</p>	<p>United States 8% 200 openings</p> <p>California No data available</p>	<p>United States \$74,780 annual \$35.95 per hour</p> <p>California \$75,310 annual \$36.20 per hour</p>	CPSLO CSUB	Florida A&M University Fort Valley State Univ.	North Dakota State University South Dakota State University
Architectural	<p>Architectural engineers design, construct, maintain and renovate buildings, including all interior and exterior systems such as structural, lighting and electrical, fire protection, acoustics and more. Many architectural engineering careers focus on meeting challenges such as sustainable building materials and power, earthquake or tornado resistance and specializations in residential, commercial or industrial structures.</p>	<p>United States 6% 9,900 openings</p> <p>California 9% 2,300 openings</p>	<p>United States \$137,720 annual \$66.21 per hour</p> <p>California \$159,910 \$76.40</p>	CPSLO CSUF - C	North Carolina A&T Uni Tennessee State Univ. Structural	Structural engineering is a sub-discipline of civil engineering in which structural engineers are trained to design the 'bones and muscles' that create the form and shape of man made structures. Structural engineers need to understand and calculate the stability, strength and rigidity of built structures for buildings and nonbuilding structures. The structural designs are integrated with those of other designers such as architects and building services engineer and often supervise the construction of projects by contractors on site.	<p>United States 11% 25,900 openings</p> <p>California 10% 3,430 openings</p>	<p>United States \$84,770 annual \$40.75 per hour</p> <p>California \$105,540 annual \$50.74 per hour</p>	UCSD
