

NORCO COLLEGE

The Seal

The Norco College Seal may only be reproduced in the official Norco College burgundy or black. It may also be foil stamped in silver, gold, or bronze foils or used in a blind embossed format. The minimum height when foil stamping is ½ inch. The seal can be reversed when printed on a dark color background. The seal can be printed as a watermark behind official Norco College documents such as transcripts. When screening the seal for a watermark, it cannot be screened back further than 90% of official Norco College burgundy or black.
