

Cohort Data Review 2015 High-Impact Practices Institute

Institution Name: NORCO COLLEGE

Preface: Longitudinal cohort analysis involves tracking a group, or cohort, of students for a specified period of time. Typically, colleges choose to track the cohort of students entering in the fall semester. The results, in aggregated and disaggregated form, enable administrators, faculty, and staff to identify educational progress and attainment of the overall cohort and specific groups of students. Cohort tracking is a powerful tool for helping colleges understand how students progress through the college (or don't) and for evaluating the college's efforts to improve student success.

Instructions: This template asks colleges to track the cohort of first-time-in-college students who entered the institution in fall 2010. Tracking the fall 2010 cohort allows the college to address the four-year completion rate while providing the most recent data. This template also asks colleges to disaggregate the cohort into sub-groups of students by 1) gender, 2) age, 3) race/ethnicity, 4) enrollment status, and 5) developmental education status. Colleges are then asked to report on designated aspects of progress and performance for the cohort of students.

Uses: Results of this review will be used in college team discussions prior to and during the High-Impact Practices Institute. The data from this review and the *Integrating Survey Results* documents will help the college team design an action plan that creates or strengthens clear, coherent, and integrated educational pathways for community college students.

Due Date: Submit your completed *Cohort Data Review* to Zach Garcia at garcia@cccse.org by March 6, 2015.

Cohort Data Review 2015 High-Impact Practices Institute

Institution Name: NORCO COLLEGE

Target Student Cohort: All first-time-in-college students, full- and part-time, enrolled in COLLEGE-LEVEL credit courses and/or DEVELOPMENTAL EDUCATION subject area courses (whether credit or non-credit). Do not include dual/concurrent enrollments.

NOTE: *Your college may choose a different fall cohort as early as 2004, but no later than 2010. If your college is not using the fall 2010 cohort, please specify the year: Fall _____*

Total number (N) of all students in the target student cohort: 2474

Cohort Group	Total Number	Percentage of Cohort
Enrolled part-time:	1534	62.0%
Enrolled full-time:	940	38.0%
Female:	1274	51.5%
Male:	1186	47.9%
Unknown:	14	.6%
Asian:	190	7.7%
Black or African American, Non-Hispanic:	196	7.9%
Hispanic/Latino:	1253	50.6%
American Indian or other Native American:	4	0.2%
Pacific Islander or Native Hawaiian:	12	0.5%
Two or more races:	76	3.1%
White, Non-Hispanic:	722	29.2%
Unknown:	21	0.8%
Age 26 and younger:	2141	86.5%
Age 27 and older:	333	13.5%
Unknown:	0	0.0%
Non-Recipients:	1628	65.8%
Pell Grant Recipients:	846	34.2%

Cohort Data Review 2015 High-Impact Practices Institute

Institution Name: NORCO COLLEGE

Target Student Cohort: All first-time-in-college students who entered this institution in your selected cohort—full- and part-time, enrolled in COLLEGE-LEVEL credit courses and/or DEVELOPMENTAL EDUCATION subject area courses (whether credit or non-credit). Do not include dual/concurrent enrollments.

Data Elements	Definition	College Data				Notes/Observations/ Additional Questions
1. First-time-in-college student participation in developmental education subject area. <i>Disaggregate by enrollment status, gender, race/ethnicity, age group: 26 years and younger vs. 27 years and older, and Pell Grant status.</i>	From the target student cohort, the percentage who enrolled in at least one developmental education subject area course in their first term.		# Entering Students	# Enrolled in at Least 1 DEVED Course	% Enrolled in least 1 DEVED Course	<ul style="list-style-type: none"> • More females take DEV • More AA, Hispanic take DEV • Why did so few students enroll? • Are we offering enough sections of DEV • Why are older students less Likely to take DEV
