Sequence to Success DNA Barcoding Challenge

About

The University of California Riverside's College of Natural and Agricultural Sciences and the HSI-STEM Pathway Program are hosting a four-week research experience for currently enrolled community college students. The Sequence to Success DNA Barcoding Challenge consist of local community college students engaged in faculty mentored on-campus research. Student groups will present their results and conclusions during a poster presentation at the end of the program. The Sequence to Success DNA Barcoding Challenge will take place from

Saturday, October 5th and Saturday, November 2nd, 2019

Eligibility

Participants are selected on a competitive basis from local community colleges and must meet the following requirements:

- Transfer as a STEM major
- Must be U.S. citizens or permanent residents
- Preferred academic preparation: At least one semester of core science or math series in :
 - Biology, General Chemistry, Physics, or Calculus

Program Requirements

Attendance and participation for the two on-campus program dates are **MANDATORY**.

⇒ **Saturday, October 5th 9:00 am to 5:00 pm (Laboratory)**

⇒ **Saturday, November 2nd 9:00 am to 2:00 pm (Symposium)**

Students will work in groups over the 4 weeks to write a research abstract and present their group project as a poster presentation at the end of program symposium.
