**Subject:** Library Usage Statistics for 2017-2018

Hi Dr. Lee,

I wanted to report out some exciting statistics that highlight the usage of library services and resources for the past academic year. These statistics help to illustrate the library's significant role in supporting student success and completion at Norco College:

During the 2017-2018 academic year, the library door count was 307,746. Library computer workstation usage recorded 71,051 logins/45,721 hours. Library study rooms were checked out 11,469 times for two-hour sessions, and 18,076 library reserve textbooks were checked out.

Thank you for approving the extension of the library's open hours on Fridays and Saturdays in response to student usage, and to provide greater opportunities and access to library services and resources for increased student achievement!
