SPRING 2018

SI FACULTY SURVEY RESULTS

Were there any areas on which your SI Leader was particularly outstanding?

Austin was outstanding in identifying areas of needs for my students and creating genuine activities that targeted those areas.
Junhe (Howard) did an excellent job coordinating his lesson plans to the content that I was teaching during the semester. I felt like my students had less 'gaps of knowledge' from forgetting things than they have had in previous semester.
There are many areas. She was an effective communicator (I liked that she used Remind to communicate with students), all the students liked her, totally self-sufficient, very polite in class, and hugely effective.
The students responded positively to the benefit of the SI sessions. In fact, it was word of mouth that brought other students to the sessions!
We had a good amount to communication throughout the semester. Each class meeting, Johnny got up in front of the class and told the students what he'd be going over that day (the SI Sessions were shortly after class).
Edgar put together wonderful worksheets that challenged the students. I am so proud of his growth as an SI leader.
He was definitely encouraging to students and sincerely conveyed how much he wanted to help.
All areas
All was great!
Building rapport with students, modeling study habits
Genuine curiosity about and passion for the material.
Having Ms. Sultan as an SI Leader was an excellent experience, and I think she was a valuable asset for my CHE-12A students.
Helpful to all students whether they attend SI sessions or not.
Good Knowledge

Please provide any additional comments you may have:

I am thankful for the opportunity of having SIs.
I'd like to see SI's get more English-focused training.
Thank you to all who make the SI program at Norco College possible!
Jake and I had good communication, although it could have been a little more frequent. However, I have had Jake as an SI before and trust his judgement in conducting his sessions.
Per our agreement, Johnny attended only one of the classes for the full 75 minutes, but students from both classes attended the SI Sessions.
Thank you for the opportunity to have Edgar as my SI leader. My students were far more successful this semester because of his presence.
It is very important that the SI be in the classroom to build relationships and meet students. I believe this is the only reason the students showed up to SI. He was quite good at encouraging people to come. He also needed to hear what was going on in the discussions.
Great SI leader
Great SI leader
Jose was a stellar SI leader.
Good
