1	Last time I checked, which was the beginning of the winter session, the link on the new Norco College homepage to the library was broken. I haven't checked if it is now working but if that link is still broken, please have it fixed ASAP as it is how I show students in class how to get to the library's website.	1/22/2019 1:58 PM
2	I only teach online but will use these services more in the future.	1/22/2019 11:06 AM
3	I am interested to know more about how the Library serves students in specific disciplines, such as Art History and Studio Art.	1/14/2019 3:45 PM
4	I teach mainly students who work during the day so their class schedule is at night. Therefore, the library is not open when my students can use it. I would like the library to think about staying open until 9:30 or 10:00 during the week and opening at 12:00 to 8:00 during the weekends. CSUF had many students use the libraries from 9:00 to 10:00 at night and weekends there was not much space left open.	1/8/2019 3:19 PM
5	Is there a workshop provided to help students learn how to research via the electronic database? This is essential for academic survival, especially when they transfer.	1/7/2019 4:05 PM
6	Is there a flyer or handout that details all of these services? If not, could one be made?	12/7/2018 2:49 PM
7	Sorry, I was unaware of much the library has to offer, but the more I learn the more I would be willing to send students	12/7/2018 9:27 AM
8	Maybe a one page flyer of the services offered get sent to our emails that we can share with our students would be helpful :)	11/29/2018 10:13 AM
9	I see such internet savvy students, I don't think to refer them to the library. I will do that in the future.	11/27/2018 9:42 AM
10	We need a workshop on Media literacy (specifically the internet) and discerning real information from opinion. I emailed the library earlier this year and found out we do not offer one. Also, I think its a good policy to keep a copy of required course textbooks at the library. I also emailed a request about this.	11/26/2018 2:54 PM
11	I think a reminder of all the tools and services you offer would be greatly appreciated by the faculty	11/26/2018 2:34 PM
12	I think the library is a valid and necessary resource to any and all college students and faculty. I think the library should be open when classes are in session and not for only a short time (5 hours per day M-F). So, many times when I have gone into the library to relax over the past few years, I can never find an empty chair. The library is always packed to overflowing with students. We need these resources. Many students go in there and use the text books we teacher make available for them, because they cannot afford to buy them for their classes. So, when the library is not open, you are doing a disservice to our students. Also, students use computers in the library for these same reasons, and to do research for their classes. Many students do not have access to computer off campus. So, please be a valuable resource like libraries have been in the past for everyone. Thanks.	11/20/2018 9:03 PM
13	My one problem with the library that it closes at 8:00 pm. If it was open until 9:30 I possibly might have my students meet there a few nights mid-semester to work on their group work or research work.	11/20/2018 2:39 PM
14	Are students sent a link with the upcoming library events?Thank you for doing what you do!	11/20/2018 2:33 PM
15	I teach an evening class in the Wintersession and am a bit disappointed that the library closes early.	11/20/2018 11:19 AM

16	I believe the library of our college and its staff does an excellent job of providing resources and services to our students and faculty.	11/20/2018 11:02 AM
17	Thank you for supporting our students' research and learning.	11/20/2018 10:16 AM
18	Keep up the awesome work!	11/19/2018 2:53 PM
19	I would love to be able to schedule a workshop or session with a librarian for certain classes. For example, if a class is doing a research session, it would greatly increase student success to have a workshop tailored to finding sources for their specific project. I have used resources like this at other places, with the workshops typically offered in a lab so students leave with a jump start on their project. Library instruction lead to much higher quality papers, reduced student anxiety, and helped student transfer information about the library into specific courses.	11/17/2018 8:47 PM
