COMPLETION MESSAGE: Thank you for taking time to provide information about yourself that

will help us connect you with tools, resources, and people who can support your academic and career success. Our team will review your responses and reach out to you soon with an action plan designed to help you have a great start at Norco College.

CAREER PLANNING SURVEY

It is our goal for you to start college on an educational pathway that is based on a clear decision about which career you plan to pursue in the future. Some students know exactly what career they want to enter and how their college education will help reach that goal, but most are still trying to figure it out. We want to meet you where you are and equip you with the resources and supports you need to help you make an informed decision.

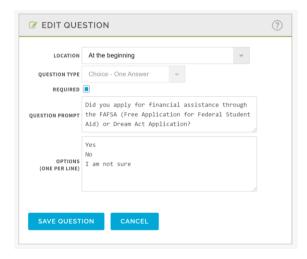

Please select the option that best describes how you feel about career decision making:

- 1 I have not spent much time thinking about occupations I am interested in or deciding what kind of job I want in the future.
- 2 I have done some career exploration and narrowed down my options for which job(s) I would like to pursue, but have not yet made a firm decision.

3 - I am certain about which career field I would like to enter at this time, I selected a major, and I have identified jobs of interest in that field.
