## **Budget Allocation Model Update**

The Revised Budget Allocation Model was developed to allocate resources around the following core principles:

- Fair Resource allocation decisions will be informed by objective, predictable, verifiable, and easily accessible data and will be made in an impartial and consistent manner.
- Equitable Resources will be distributed in an manner that adequately supports the full array of programs offered at each college while ensuring compliance with statutory and regulatory requirements; efficient and strategic use of resources is expected, and inefficiencies will not be subsidized or supported.
- Transparent Resource allocation decisions will be made in an open and consultative manner with representative stakeholder groups and that it is simple, easy to administer and communicate as possible.
