NEW PROGRAMS

APPRENTICESHIP: MANUFACTURING TECHNICIAN 1
NCE968
(August 2020 Addendum)

This provides students with a first step towards becoming a fully qualified journey level Manufacturing Technician. Through a combination of work-based learning, lectures and lab components, this program includes shaping and forming operations, materials handling, instrumentation and controls, and quality control, as well as computer-aided manufacturing and robotics. This program also includes optimization theory, industrial and manufacturing planning, and related management skills. Completion of this program prepares students for gainful employment as a machine operators, production technicians, CNC Programmmer, industrial or manufacturing engineering technicians, or tool setter. To participate in this program, students must register as an apprentice and meet applicable program requirements.

Program Learning Outcomes:
Upon successful completion of this program, students should be able to:
1. Students will apply industry standard safety practices and specific safety requirements for different machining operations.
2. Students will be able to proficiently use equipment, machines, and technology in manufacturing processes.
3. Knowledge of and ability to demonstrate general manufacturing technical practices and procedures that are applicable to all sectors of manufacturing.

GAME DEVELOPMENT CORE
NAS970/NAS970B/NAS970C/NCE970
(November 2020 Addendum)

Students completing the Game Development Core program will be well versed in the process by which games and game assets are designed and created. Students will have explored a breadth of topics spanning the core disciplines of games creation, allowing them to communicate and operate effectively in a video game development environment. In addition to courses focused on individual disciplines and skills building, students will also work collaboratively in a creative environment creating simple games and rapid prototypes to emphasize teamwork and strengthening of soft skills. Students will be prepared to enter the field as junior designers, programmers, artists, and producers.

Program Learning Outcomes
Upon successful completion of this program, students should be able to:
1. Apply the principles of modern game development through the creation of creative assets and supporting materials.
2. Contribute to working games and prototypes which require team management, effective planning, communication, time management, and responsiveness.
3. Develop content that contributes and adds value to games projects or portfolio.
4. Create modern portfolio demonstrating viable capability utilizing games and class projects.

GAME CONCEPT ART
NAS971/NAS971B/NAS971C/NCE971
(November 2020 Addendum)

Students completing the Game Concept Art program will be well versed in the process by which games and game assets are designed and created, with a special emphasis on how visual development influences game design and aesthetic. Students will be capable of designing and visually articulating a range of asset types, spanning props, environments, characters and more. Students will work collaboratively in a creative environment working with teams to provide visual direction. Students will be prepared to enter the field as entry level concept artists and visual designers, but with a versatile skillset that would afford them a wide range of career possibilities.

Program Learning Outcomes
Upon successful completion of this program, students should be able to:
1. Articulate visual direction of various game-targeted assets through concept ideation and rendering.
2. Apply the principles of modern game development through the creation of creative assets and supporting materials.
3. Contribute to working games and prototypes which require team management, effective planning, communication, time management, and responsiveness.
4. Develop and integrate content that contributes and adds value to games projects or portfolio.
5. Create modern portfolio demonstrating viable capability utilizing games and class projects.

3D GAME MODELING AND ANIMATION
NAS972/NAS972B/NAS972C/NCE972
(November 2020 Addendum)

Students completing the 3D Game Modeling and Animation program will be well versed in the process by which games and game assets are designed and created, with a special emphasis on how 3D game assets are constructed and integrated. Students will be capable of building a variety of 3D asset types ranging from simple static props to intermediate animated objects. Students will work collaboratively in a creative environment creating 3D assets for simple games and rapid prototypes to emphasize teamwork and strengthening of soft skills. Students will be prepared to enter the field as 3D game art generalists, but with a versatile skillset that would afford them a wide range of career possibilities.

Program Learning Outcomes
Upon successful completion of this program, students should be able to:

1. Build modeled, textured, rigged, and animated 3D game assets using modern software and techniques.
2. Apply the principles of modern game development through the creation of creative assets and supporting materials.
3. Contribute to working games and prototypes require team management, effective planning, communication, time management, and responsiveness.
4. Develop and integrate content that contributes and adds value to games projects or portfolio.
5. Create modern portfolio demonstrating viable capability utilizing games and class projects.

INFORMATIONAL CORRECTIONS

Course Corrections

ADJ-200
(June 2020 Addendum)
The title for this course is incorrect in the catalog, and the limitation on enrollment should be listed as an advisory. The corrected information is below.

ADJ-200
Administration of Justice Work Experience  1-4 Units
CSU
Prerequisite: None
Advisory: Students should have paid or voluntary employment.
Description: Work Experience is designed to coordinate the student’s on-the-job training with workplace skills designed to assist the student in developing successful professional skills. Each student will establish measurable learning objectives appropriate for their job and discipline. Students may earn up to four (4) units each semester, for a maximum of 16 units of work experience total. 60 hours of volunteer work or 75 hours of paid work during the semester are required for each unit. No more than 20 hours per week, out of the 60 or 75 requirement, may be applied toward the work requirement. The course consists of an 18 hours of orientation/professional skills development and 60 hours of volunteer work experience per unit with a maximum of 240 for four units per semester OR 75 hours of paid work experience per unit, with a maximum of 300 for four units per semester.

ELC-421
(June 2020 Addendum)
The cross listing for this course is erroneously listed as ELC-421. The correct cross listing is ELE-421.

ESL-47 through 50 and 847 through 850
(August 2020 Addendum)
The language “or qualifying placement” was missing from the prerequisite statement for the above ESL courses.

MAT-36
(June 2020 Addendum)
MAT-53 is no longer a prerequisite for MAT-36. The corrected course information is below.

MAT-36
Trigonometry  4 Units
(C-ID:MATH 851)
CSU
Prerequisite: MAT-35 or appropriate placement
Description: The study of trigonometric functions, their inverses and their graphs; identities and proofs related to trigonometric expressions; solving trigonometric equations; solving right triangles; solving oblique triangles using the law of sines and cosines; polar coordinates; complex numbers; introduction to vectors and elements of geometry important to the foundation of trigonometry. 72 hours lecture. (Letter Grade or Pass/No Pass option)

REA-1
(May 2020 Addendum)
The CSU transferability designation was omitted from the REA-1 description. The complete description is below.
REA-1
Reading Tutor Training 2 Units
CSU
Prerequisite: None
Advisory: REA-3 or REA-83, ENG-1A or ENG-1AH
Description: Designed to prepare students to become peer tutors in the Reading and Writing Center. Participants learn specific tutoring techniques and discuss problems, questions, and challenges in tutoring reading. Tutors develop student-centered, non-intrusive tutoring skills. 27 hours lecture and 27 hours laboratory. (Letter grade or Pass/No Pass)

WEL-200

English Composition at Norco College: Choosing the Best Path for You

Every student has the right to enroll directly into English 1A without taking English 91. If you would like more information on enrolling directly into English 1A without 91, see the challenge/stop in process at the Counseling Office.

ENG-1A* English Composition

ENG-1A* English Composition

ENG-91 Academic Support for ENG-1A

ENG-1B* Critical Thinking and Writing

Note: Research shows that taking even one class below college-level composition (such as English 50) will make it less likely for students to complete English 1A in part because of the extra and often unnecessary semester in a non-transferable course. However, Norco College offers sections of English 50 for students who want to take an English course before they enroll in English 1A. No students are placed into or required to take English 50.

Academic Literacy and Reading

Transferable Reading Courses

REA-3** Reading for Academic and Lifelong Literacy

Reading 3 provides students with academic and multi-disciplinary (such as Humanities, Science, and Health Fields) reading strategies needed for success in college classes and beyond. This course meets the reading competency graduation requirement, and the CSU and RCCD lifelong learning Area E requirement.

REA-4** College Reading as Critical Thinking

Reading 4 provides students with argument analysis skills required for determining the validity of an author’s opinion. Students learn to critically evaluate all persuasive modes of discourse. This course meets the CSU Critical Thinking requirement.

Support Courses

REA-83 College Reading & Thinking

Reading 83 reviews reading skills and strategies to help prepare students for college reading. This course meets the reading competency requirement.

REA-887 Reading Clinic

Reading 887 is a non-credit self-paced course that provides practice on individually prescribed learning plans designed to improve and develop reading skills. Instruction is provided on an individualized basis in conferences.

Note: These are all individual courses that are not in a sequence.

Please visit the Counseling Department if you have any questions about the appropriate course(s) for you. http://norcocollege.edu/services/counseling
To obtain a Bachelor’s degree from a CSU campus, a student must complete 48 units of general education. A community college can certify 39 of these units as having fulfilled the CSU lower division general education requirements. The remaining 9 units of upper-division general education coursework are to be taken at the CSU campus after transfer. A course can only be certified if it was approved for CSU GE when it was taken.

Note: Riverside City College and Moreno Valley College are separate colleges and the courses that are approved for CSU GE may vary. Students who wish to take courses at another institution and apply them towards CSU GE should always first consult with a counselor to make sure the course will fulfill the intended requirement.

POL 1 American Politics or POL 1H Honors American Politics

Notes:
1. Courses cannot be double-counted to satisfy more than one area, even if a course is listed in more than one area.
2. Upper division transfer students will need to complete a minimum of 60 transferable units, their "Golden 4" courses, and at least 30 units of general education.
3. "Golden 4 courses" are courses with a 3 or higher on the AP U.S. History or Comparative Politics exam. The course must be completed with a grade of "C" or better. However, RCD requires a "C" grade or better to meet course prerequisites.
4. It is highly recommended to make an appointment with a counselor to ensure proper academic planning and to complete a student educational plan (SEP).

CSU Graduation Requirements in United States History, Constitution, and Government:
Although this is not part of the general education requirements, it is a CSU graduation requirement that you can complete at a community college before you transfer. HIS 6/4, HIS 7/4, HIS 14, or HIS 34 may also be used to partially fulfill area C. POL 1 may also be used to partially fulfill area D.

Norco College
Intersegmental General Education Transfer Curriculum (IGETC) 2020-2021
For Transfer to CSU and UC

Completion of the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University (CSU) or University of California (UC) system without the need to take additional lower-division general education courses. For certain majors at some of the UC campuses it may be more advantageous to complete a campus-specific general education pattern. IGETC certification is valid for community college transfer students only. Those who have already transferred to the CSU/UC systems may under some circumstances return to Norco College to complete IGETC requirements. A course can only be certified if it was approved for IGETC when it was taken.

Transfer students will receive IGETC certification after completing all of the subject areas below with a min. “C” grade or better (A grade of “C-“ is not acceptable.)

Note: Riverside City College and Moreno Valley College are separate colleges and the courses that are approved for IGETC may vary. Students who wish to take courses at another institution and apply them towards IGETC should always first consult with a counselor to make sure the course will fulfill the intended requirement.

- HIS-14 African American History I
- HIS-31 Introduction to Chicano/a Studies
- HIS-34 History of Women in America
- HUM-16 Arts and Ideas: American Culture

IGETC Advisement: Former UC, CSU and students with coursework from other four-year institutions, including outside the U.S., should consult with a counselor to determine whether they should complete IGETC or the lower-division general education requirements at the campus they plan to attend. For the UC students who initially enroll at a UC campus, then leave and attend a California Community College, and subsequently return to the same UC campus, are considered “re-admits” by the UC. Such students cannot use IGETC. However, students who enroll at a UC campus, then leave and attend a California Community College, and subsequently return to a different UC campus may use the IGETC pattern. It is recommended that students meet with a counselor to discuss possible further IGETC limitations.

Notes:

1. * Courses cannot be double-counted to satisfy more than one area, even if a course is listed in more than one area. The only exceptions to this are several courses in Area 6A – Language Other Than English, which can also be counted towards area 3B.

2. ** UC limits transfer credit for some courses. Students may review the UC Transfer Course Agreement (TCA) with a counselor for information on course limitations.

3. Some of the UC campuses do not accept or recommend IGETC for certain majors, (i.e. Engineering, Science). Students should consult with a counselor to determine the most appropriate general education pattern for their major and intended transfer institution. For updated information about IGETC limitations visit:

https://admission.universityofcalifornia.edu/admission-requirements/transfer-requirements/general-education-igetc/igetc-campus-guidance.html

4. It is highly recommended to make an appointment with a counselor to complete a student educational plan (SEP).
