Action Items:

- **D.** New Discipline: NONE
- E. Discipline Modification: NONE
- **F.** New Courses:
 - GEG-30A Field Studies in Geography *MNR As part of Instructional Program Review, it was noted that UC and CSU campuses offer courses in Geography Field Studies. The District Geography Department determined that offering a Geography field studies course will provide students new and exciting opportunities to engage in Geography in a manner that supports and enhances learning experience of students enrolled in other Geography courses. MSC: T. Friedrich Finnern/ J. Warsinski. Approved. 8 Yays, O Nays. Suggested to lessen the SLO's, submit lecture @lab rate application.

- **K.** Distance Education:
 - PHO-20DE Introduction to Digital Photography *MNR To enable more students to access the course. MSC: V. Harris/ R. Beck. * Voted Down. Missing Information. Language too generic. 8 Yays, 0 Nays. *Approved at RCC & MVC.
 - 2. SPA-11DE Spanish Culture and Civilization *MNRA hybrid class format allows the instructor to expand the course materials outside of the classroom while ensuring inclass time devoted to interpersonal interaction, dynamic instruction, and in-person assessment. Abundant authentic materials available on the web, in addition to course and instructor-provided resources, enrich not only the cultural content of the class but also enhance student listening, reading, writing and speaking skills. Moreover, a hybrid course not only may increase student access and serve unmet needs, it may also give the department flexibility in course offerings by overcoming room/time limitations of classroom space. MSC: V. Harris/ R. Beck. * Voted Down. Missing Information. Language too generic. 8 Yays, O Nays. *Approved at RCC & MVC.
 - **3.** SPA-12DE Latin American Culture and Civilization *MNR A hybrid class format allows the instructor to expand the course materials outside of the classroom while ensuring in-class time devoted to interpersonal interaction, dynamic instruction, and inperson assessment.  - CIS-41B Healthcare Information Security & Privacy for Practitioner This course is designed to support the healthcare emphasis in cybersecurity and IT Technician Pathway. This course provides option for sub-discipline study, in addition to promoting Career and Technical Education (CTE). As many healthcare facilities established in the community, there is a high demand for healthcare security practitioners. Hence, this course will support such growing demand while aiming to embrace California Community College's mission.
 - iii. CIS-49A AWS Academy Cloud Foundations "Cloud technology is on the rise in demand both by the general public and industries of all market sectors. Cloud computing is now a core competency that the computer software industry and networking seeks. Cloud computing is a type of computing that relies on sharing computing resources rather than having local servers or personal devices to handle applications.
 - iv. This is the first level of programming planned for cloud computing. Curriculum and offering an entry-level certificate was recommended by the Computing Information System/Business advisory board. RCC CIS staff have received professional development training by the largest provider of cloud computing resources and industry tools in this space, Amazon Web Services (AWS). The

curriculum RCC has developed is informed by the top industry leader in cloud computing and is a direct result of our partnership with Amazon Web Services (AWS) Academy. AWS has informed and encouraged RCC's computer Information Systems department to create this program as one part of a fully developed comprehensive pathway in cloud computing. RCC's CIS advisory board has supported and encouraged the creation of this certificate to cover technologies used not only by AWS but also by other computer software providers. This course will offer RCC students the skills needed to enter the job market."

- v. CIS-49B AWS Academy Cloud Architecting "Cloud technology is on the rise in demand both by the general public and industries of all market sectors. Cloud computing is now a core competency that the computer software industry and networking seeks. Cloud computing is a type of computing that relies on sharing computing resources rather than having local servers or personal devices to handle applications.
- vi. This is the second course planned for cloud computing curriculum and offering an associate-level certificate was recommended by the Computing Information System/Business advisory board. RCC CIS staff have received professional development training by the largest provider of cloud computing resources and industry tools in this space, Amazon Web Services (AWS). Statement of Purpose

The curriculum committee, a sub-committee of the academic senate, has two primary purposes: to review and approve new curriculum including new courses, course modifications, new programs and program modifications, and to review and approve the curriculum approval process. The college curriculum committee is the sole approving body for Norco College only curriculum. For district shared curriculum it has one vote in the district curriculum committee. The curriculum committee is also responsible for keeping abreast with state mandated curriculum changes and reporting those changes to faculty. Committee members report on curriculum at their department meetings and solicit suggestions and recommendations when needed.
