- Need to look at weaknesses and think how these can be fixed or eliminated.
- Remember that threats and opportunities are from outside influences.
- An additional item under threats more equitable distribution of cuts between district and colleges.
- Or is this an opportunity more equitable distribution of resources given the mission of the district and the colleges.

- Summer schedule is due now.
- Need to consider success of K-12 students through college. What classes will be offered in order to have students succeed.

III. Open Hearing

ELECTRONIC VOTE

March 6, 2012

Motion by Gail Zwart, second by Diane Dieckmeyer, to give the ISPC sub-committee the task of developing a strategic plan for course scheduling of the 2012-2013 academic year. In addition, several faculty (general education, CTE) will be added to the committee to ensure representation.

Motion passed with 15 ayes and 2 abstentions.

ELECTRONIC VOTE

March 8, 2012

Motion by Diane Dieckmeyer, second by Jason Rey, to approve the recommendation below and forward it to the President.

Motion passed with 13 ayes and 4 abstentions.

The ISPC Enrollment Management Sub-Committee (EMSC) met to develop a recommendation for the allocation of FTES for summer 2012. The EMSC established the following guiding commitments:

Course offerings should be made with continuing students or exiting students in mind. Course offerings should reflect graduation requirements (CSU, UC, AA, AS degree or certificate). Courses chosen should be courses which are single graduation requirements or courses that satisfy more than one area requirement.

Courses chosen should relieve a roadblock or be part of a pipeline.

Though no basic skills courses will be offered during the summer, the needs of basic skills students and incoming Freshman will be addressed via alternative interventions which are not FTES generating. Consideration was also given to facilities usage.

In addition, the sub-committee used criteria for the allocation that reflects, proportionally, the availability of options that fulfill the multiple requirements for transfer or degree completion.

As always, individual course selection will be completed through APC and the Dean's office. The specific courses listed below are only a suggestion.
