Program Data Highlights Section

COR Review: Virtually all the courses in the GEG discipline need to be updated. There are major course mods in progress for several of the courses (GEG 1, 1L, 1H, 2) in cooperation with the other colleges in the district. I have tried to do minor mods (like updating textbooks) on several other courses and keep hitting roadblocks. (Not using META right? Need to literally have documentation of meetings within the department and discipline in order to update a TEXTBOOK? This cannot be right...but the program in META won't let me move forward without these items). (Again...refer to my first possible problem: not using META right???)
