

Program Review - Overall Report

Student Services: Advising and Counseling

Program Comparison

How does your program compare to the college in the following areas: gender, ethnicity, FT/PT enrollment status?

Educational Advising and General Counseling are available through the Academic Counseling and Career Development Center (ACCDC). Services provided are open and available to all students at Norco College. Additionally, limited services are also available for students who attend our sister colleges in Riverside and Moreno Valley as well as the general public.

The following data is derived from the CCCCO's Datamart platform. Between fall 2021 and fall 2023 the percentage of all students who received counseling and advisement breaks down as follows:

Female - 51%

Male - 49%

African American - 6%

Hispanic - 57%

White (non-Hispanic) - 18%

Asian - 11%

No data was available with regard to whether the student was FT or PT.

Locally there appears to be no data provided in PowerBI to track student services (including counseling and advising) and no disaggregated data by demographic to indicate who receives those services.

Program Comparison: Are there any gaps in demographic areas that need to be addressed?

The CCCCO Datamart information suggests that during the 2022 – 2023 school year the number of times that students by demographic received counseling and advisement services is as follows:

Females – 5, 268; Males – 4, 907; African American – 576; Hispanic – 5,771

This provided data does not appear to fully indicate whether services were provided through general counseling or a special program.

There are special populations programs such as Puente and Umoja, which focus on specific demographics and include dedicated counseling services. However, the data suggests that they only serve a small percentage of the general student population.

For example, the average number of participants over the past three semesters (fall 2022 - fall 2023) in the Umoja program has been 180 students.

(https://datamart.cccco.edu/Services/Special_Pop_Count.aspx.) Similarly, local data indicates that the average number of participants served through the Puente program is roughly 50 students.

It is notable that regardless of whether students were assisted via general counseling or a special program, there appears to be a significant part of the demographic population who did not receive counseling and advising services during the past year.

Using fall 2023 enrollment data, an estimated 1,277 students identify as African American. Students who identify as Hispanic are numbered at 10,831. Clearly there is a very large gap between those who received counseling and those who did not.

An additional demographic concern relates to concurrently enrolled high school students and Dual Enrollment students. As Norco College's partnerships with local unified school districts continue to grow, the ACCDC experiences increased requests for counseling and advisement services for these populations. Some services are provided by offsite dedicated adjunct counseling faculty. Yet, more high school students are also now making appointments and seeking counseling assistance in the ACCDC.

As the examples above suggest, there is a continued increase and demand for general counseling (ACCDC) services and assistance for all various demographics. Without increased support and

Data Review

additional numbers of staff and faculty as well as funding, it is expected that service gaps will continue to grow larger.

Please add any relevant documents here.

Program Student Outcomes Comparison

How do student outcomes for your program compare to the college overall in Student Educational Planning, Success, and GPA?

The Academic Counseling and Career Development Center is open and available to all Norco College students, other RCCD students and the general public. Only those students who have Norco College indicated as their home college are eligible to receive a comprehensive Student Education Plan (SEP.)

As per the college catalog and using knowledge of CSU and UC transfer requirements, counselors initially address desired student outcomes (i.e. graduation and transfer) based on minimum requirements for eligibility to graduate (associate degree or certificate,) coupled with recommendations to improve likelihood of accepted transfer to an intended university and/or major.

For the 2022 – 2023 school year, 526 students received a comprehensive SEP. An SEP is seen as an integral part of helping a student to succeed in college. (<https://www.cccco.edu/-/media/CCCCO-Website/docs/executive-summary/vision-for-success.pdf>) Therefore a greater emphasis is needed in making sure that every newly onboarded student receives an SEP within their first year.

To properly respond with regards to whether student services such as counseling and advising positively impact student success and/or GPA more available disaggregated data will need to be made available.

Please add any relevant documents here.

Program Student Outcomes: Are there any gaps in student subgroups that need to be addressed?

Any identified gaps in subgroups are anecdotal based on institutionally reported data. As has been previously stated, there appears to be a limited number of students in each demographic who receive counseling and advisement services. Therefore, it can be assumed that holistically there is a need to provide services to a greater number of each demographic population.

An additional gap has also been identified in regard to students who are participants in a "School" as created through Guided Pathways. Each of the eight "Schools" have dedicated counselors so that students who are interested in a particular program of study or career objective can have one counselor whom they can view as 'their counselor.' This is ideally someone who is devoted to their school and curriculum.

However, a review of SARS data suggests that very few students are connecting directly with the dedicated counselor for their school. Instead they appear to be more focused on seeking a counselor with whom they have previous experience or whomever may be available at the time of the requested need. It is possible that students might still be unaware that they have a dedicated counselor for their program and "School."

Program/Unit Goals

Strategic - Holistic Student Support Surveys

Program/Unit Goal

Scale holistic student support process to all students.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

A five-part 25-question holistic student support survey is woven into the new student online orientation that assesses their needs related to career development, financial education, campus connections, student supports, and academic planning. Each student receives a custom support plan immediately following completion of the survey and then department contacts associated with their expressed needs reach out to them directly to provide support. Peer Advisors follow-up a few weeks later to make sure each student has been connected to supports that meet their needs.

What are your plans (3-year) regarding this goal?

Within three years, we plan to expand and scale this service to be integrated into the regular experience of all students (including continuing students). To do so, we will need to identify processes in the student experience in which to embed holistic student support surveys, establish a centralized database to store student needs information, and ensure that adequate staff are available to respond to the expressed needs of students.

Please add any relevant documents here.

Educational Master Plan (2020-2025): *undefined*

- **2025 Objective 1.1 - KPI 1 (Academic Affairs):** Go from 7,366 to 8,759 total FTES (✓)
- **2025 Objective 1.2 - KPI 2 (Student Services):** Go from 14,624 headcount to 16,581 total headcount (✓)
- **2025 Objective 1.4 - KPI 3 (Student Services):** Increase capture rates from feeder high schools by 4% annually (✓)
- **2025 Objective 11.2 (Student Services and Planning and Development):** Implement intuitive and technology-enhanced CRM (e.g., Salesforce) systems for the entire student life cycle ("from recruitment to alumni") (✓)
- **2025 Objective 2.5 - KPI 7 (Student Services):** Increase the number of first-time, full-time enrolled students from 508 to 900 (✓)
- **2025 Objective 3.1 - KPI 8 (Student Services):** Reduce the equity gap for African American students by 40% (✓)
- **2025 Objective 3.2 - KPI 9 (Student Services):** Reduce the equity gap for Latinx students by 40% (✓)
- **2025 Objective 3.3 - KPI 10 (Student Services):** Reduce the equity gap for Men of Color by 40% (✓)
- **2025 Objective 3.4 - KPI 11 (Student Services):** Reduce the equity gap for LGBTQ+ students by 40% (✓)
- **2025 Objective 3.5 - KPI 12 (Student Services):** Reduce the equity gap for Foster Youth students by 40% (✓)
- **2025 Objective 7.6 (Student Services):** Build and support student services to foster student engagement, wellness, and success in the classroom and outside the classroom (✓)
- **2030 Goal 1: Access:** Expand college access by increasing both headcount and FTES (✓)
- **2030 Goal 2: Success:** Implement Guided Pathways framework. (✓)
- **2030 Goal 3: Equity:** Close all student equity gaps. (✓)

SSIPP Framework: *undefined*

- **Integrated:** Students are seamlessly connected to information, resources, and services without being bounced around. Siloes are eliminated. (✓)
- **Personalized:** Each student receives the type and intensity of support appropriate to his or her unique and

Program/Unit Goals

diverse needs. (✓)

- **Proactive:** Students are connected to supports at the first sign of trouble, not after a situation builds to a crisis point. (✓)
- **Strategic:** Students are connected to the specific supports they need, when they need them, and in an effective and efficient delivery mode. (✓)
- **Sustained:** Students are supported throughout their full journey at an institution, particularly at key momentum points. (✓)

Progress and Evidence

Evidence Date

02/06/2024

What progress have you made toward this goal?

How do you measure your progress?

Discuss your evidence/results.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

Data provided by the Claremont Evaluation Center (funded by the Title V "PACES" Grant) has shown that administering holistic student supports to incoming Norco College students results in an 8% higher capture rate (completion of matriculation and registration for first term), 7 - 15.5% higher fall to spring persistence rate, and an 8 - 15.5% increase in average units completed in the first term. This data was derived based on a comparison to similar students matriculating at RCC and MVC who did not complete a holistic student support survey between 10/1/21 and 8/21/22.

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

Ongoing funding needed to support Peer Advisors who follow-up with incoming students regarding the needs expressed on their holistic student support surveys.

Please add any relevant documents here.

[HSSS Report COHORT 2 - 2.2.24.docx](#)

Primary Counselor for each enrolled student

Program/Unit Goal

To ensure that students are made aware that there are dedicated counselors for their School or special population/group (if applicable) and that those counselors should be regarded as their 'primary contact' with all others serving as supplemental and secondary.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

Over the past three years, through collaborative case management, continuing students who have reached out for counseling services have been informed and encouraged to meet with their dedicated counselors and educational advisors for their respective program of study (Schools) or special program. Newly onboarded students have also been advised that there are dedicated counselors for their respective "Schools" and special programs.

What are your plans (3-year) regarding this goal?

Guided Pathways and KPI data confirm that a majority of students prefer to have specific advisors and counselors rather than meeting with someone different each time. When always having to meet different support staff and faculty, students feel they do not get consistent counsel and advice and always have to start at the beginning and reshare their story.

Program/Unit Goals

An awareness campaign among students that identifies their dedicated counselor and educational advisor is needed. Also, a plan needs to be created that ensures greater availability of both staff and faculty for those students who are part of their assigned School or special program.

Please add any relevant documents here.

Improve Ratio of Support for Students

Program/Unit Goal

To improve the ratio of support faculty and staff for each individual student and comply with the ASCCC standard of 1:370.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

Program/Unit Goals

Over the past three years efforts have been made to improve the number of faculty and staff who counsel, advise and support Norco College students. The number of full-time counselors has increased from 12 to 14. The number of educational advisors has increased from 5 to 8.

As of fall 2023, the student-to-college counselor ratio is 1320:1. The student-to-educational advisor ratio is 2311:1. Combined, the overall ratio of students-to- student services counseling and advisement is 840:1

What are your plans (3-year) regarding this goal?

According to the ASCCC, the student-to-counselor/advisor ratio should be 370:1.

(see <https://asccc.org/resolutions/establish-title-5-regulations-counselor-student-ratios>)

The plan for this goal is to find resources, measures, and funding to bring the current ratio of 840:1 into compliance with the ratio approved by the ASCCC.

It is important to note that the ASCCC Title V recommendation specifically refers to counseling as counseling faculty who "are available to serve the broad needs of the general student population." However, for the purposes of this Program Review goal, the definition is being expanded to include both counseling faculty and educational advisors as both provide a valuable advisement service for students.

Please add any relevant documents here.

Career-focused Developmental Advising

Program/Unit Goal

Drive academic advising through early, embedded, and effective career counseling.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

All full-time counselors have received training and professional development related to the Cognitive Information Processing theory of career development. This approach views career decision-making as a problem-solving exercise and guides students through the stages of goal setting and assessing values, understanding their skills, interests, and abilities, exploring careers, evaluating career options, declaring a career goal, and then making academic, financial, and employment-related plans to achieve that goal. The approach also includes opportunities to integrate external factors, address personal barriers, and prepare for future life transitions that may change career plans for the future. In the 2023-2024 year, the matriculation process was restructured to steer incoming students to meet with counselors as one of their first steps so that we could embed career development support much earlier in the student experience.

Program/Unit Goals

What are your plans (3-year) regarding this goal?

Within three years, we plan to fully expand professional development related to Cognitive Information Processing theory to all part-time counselors as well. In addition, we will continue to develop resources to support this effort, provide professional development opportunities, and work to embed this effective approach into GUI-47 and GUI-47A instructional content.

Please add any relevant documents here.

Progress and Evidence

Evidence Date

05/13/2024

What progress have you made toward this goal?

How do you measure your progress?

Discuss your evidence/results.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

Data received from over 7,200 Holistic Student Support surveys has shown that 62% of incoming Norco College students are undecided on their career goal at entry, with 14% of students indicating that they have not considered any career or employment goals and 48% of students responding that they were still working on narrowing it down and had not yet made a decision.

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

A commitment of ongoing funding to support full-time overload and part-time adjunct counseling hours is needed to effectively provide a multi-session career-focused developmental advising intervention to the thousands of incoming students who arrive undecided each year.

Please add any relevant documents here.

Student Success Teams

Program/Unit Goal

Engage all students regarding career and academic pathways using cross-functional teams.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

Student Success Teams were (re)launched in Fall 2023 along with an expanded listing of academic “schools” and school-assigned counselors and educational advisors. These teams began to meet and focus on developing student engagement activities targeted to students in each pathway at each stage of the student

Program/Unit Goals

journey (connection, entry, progress, completion, and transition). Various activities have been offered, usually during monthly "CAP hour" time periods, such as faculty meet-and-greets, alumni panels, guest speaking events from practicing professionals, and other academic and career focused events.

What are your plans (3-year) regarding this goal?

Within three years, we hope to institutionalize this service so we can continue to engage students throughout their journey. As we learn about student interest in various student engagement activities, we hope to provide more relevant programming with each passing semester. The goal is to record and publish this content for future student viewing and eventually offer content for each major. Currently, a large portion of the funding for these events comes from soft-funding sources, so the ability to sustain this programming is uncertain.

Please add any relevant documents here.

Progress and Evidence

Evidence Date

05/13/2024

What progress have you made toward this goal?

How do you measure your progress?

Discuss your evidence/results.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

Research from the RP Group (Booth et al., 2013) suggests that structural supports, like Student Success Teams, allow students to maintain motivation to attain their goals, help students make decisions, and provide comprehensive supports which teach students how to succeed.

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

Several supports would be needed to institutionalize this effort, including a Director of Academic Advising and Student Success to coordinate the work, funding for Peer Advisors, additional Educational Advisors (with the goal of at least one per school), and funding to support the engagement activities, including funds for marketing, food, supplies, and guest speaker contracts / honorariums.

Please add any relevant documents here.

Peer Advising

Program/Unit Goal

Program/Unit Goals

Employ a large force of Peer Advisors to facilitate college communications for all students.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

A workforce varying from 7 – 14 Peer Advisors has been hired to connect with students at various stages of the student journey. While they do not have any formal access to the student records system, Peer Advisors help other students by teaching them about self-guided online services, providing general information to prospective and new students, screening student needs in reception environments, and making appropriate referrals to other support services.

What are your plans (3-year) regarding this goal?

Within three years, expand Peer Advisor support to ensure that each of our eight schools includes Peer Advisors as part of their Student Success Teams to serve as knowledgeable points of contact, provide pathway-related peer mentoring, and facilitate communications to students about upcoming events, important dates and deadlines, and other relevant information.

Please add any relevant documents here.

Mapping

Progress and Evidence

Evidence Date

05/13/2024

What progress have you made toward this goal?

How do you measure your progress?

Discuss your evidence/results.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

Various research from the National Academic Advising Association (NACADA) and published in *Academic Advising Today* has shown that properly trained Peer Advisors can help encourage and connect other students during the career and major selection process, bridge the gap between professional advisors and students, and create more access points for students to be referred to supports related to their career, academic, and personal needs. See <https://nacada.ksu.edu/Resources/Clearinghouse/Peer-Advising.aspx> for more information.

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

Our Peer Advisor program has been supported through soft funds since 2021. Ongoing and committed funds for this initiative will be needed in the future to sustain the Peer Advising service. Also related is the request for a Director of Academic Advising and Student Success to supervise this workforce.

Please add any relevant documents here.

Program/Unit Goals

Welcome Center

Program/Unit Goal

Launch a fully-staffed Welcome Center service on the first floor of the SSV Building

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

The Title V "PACES" Grant provided funding to purchase and install the furnishings needed to create a Welcome Center space for students during the Spring 2024 semester. The setup includes three student-use computer stations, a printer, and three staff workstations. In addition, upgrades were made to the public display screen and check-in software to ease the flow of traffic in that area.

What are your plans (3-year) regarding this goal?

Within three years, the plan is to have a fully functional Welcome Center service with complete staffing during all operational hours. Incoming students will be able to easily identify where to go for assistance with applying and onboarding to Norco College, and view the Welcome Center as a go-to location for support during the connection and entry phases of their journey.

Please add any relevant documents here.

Mapping

SSIPP Framework: *undefined*

- **Integrated:** Students are seamlessly connected to information, resources, and services without being bounced around. Siloes are eliminated. (✓)

- **Proactive:** Students are connected to supports at the first sign of trouble, not after a situation builds to a crisis point. (✓)

Progress and Evidence

Evidence Date

05/13/2024

What progress have you made toward this goal?

How do you measure your progress?

Discuss your evidence/results.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

A major goal of the Title V "PACES" Grant was to address systemic deficiencies by aligning key offices engaged in advisement and student onboarding, merging and integrating their information systems, and bringing the departments together. A 2016 study (Daugherty, Lindsay, William R. Johnston, and Tiffany Tsai, 2016) of four community college systems demonstrated that students able to access a one-stop shop for nonacademic wraparound services and financial support were significantly more likely to persist in college than their corresponding matched comparison group. Our goal is for the Welcome Center to serve as such a service.

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

Ongoing funding is needed to support Peer Advisors who help staff the Welcome Center, screen student needs, guide students through self-service technology, and connect/refer students to support services and resources.

Please add any relevant documents here.

Program/Unit Goals

Guided Outreach and Onboarding

Program/Unit Goal

Coordinate with the local community to facilitate structured outreach experiences and a guided onboarding experience for prospective students.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

In the 2023-2024 year, Outreach Services facilitated more than 60 activities to help members of the community learn about Norco College and support their enrollment efforts. Outreach activities included attendance at college fairs and job fairs, presentations at high schools, on-campus orientations, campus tours, and participation in community events.

What are your plans (3-year) regarding this goal?

Within three years, we plan to expand Outreach Services to include application workshops, financial aid workshops, and to increase our regular presence on high school campuses. It is also a goal to centralize outreach-related communications with the community such that the public has a simpler procedure for arranging outreach activities with Norco College. This would involve establishing a single point of contact who serves as a liaison for outreach services, including for general students, CTE students, dual enrollment students, and students with disabilities.

Please add any relevant documents here.

Mapping

Educational Master Plan (2020-2025): *undefined*

- **2025 Objective 1.4 - KPI 3 (Student Services):** Increase capture rates from feeder high schools by 4% annually (✓)

SSIPP Framework: *undefined*

- **Personalized:** Each student receives the type and intensity of support appropriate to his or her unique and diverse needs. (✓)
- **Proactive:** Students are connected to supports at the first sign of trouble, not after a situation builds to a crisis point. (✓)

Progress and Evidence

Evidence Date

05/13/2024

What progress have you made toward this goal?

How do you measure your progress?

Discuss your evidence/results.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

Given that this is the first year of our revised outreach efforts, data collection efforts are just now getting underway. Thus far, we have tracked the number and type of outreach activities we have engaged in, and have compiled rosters of students who have attended on-campus high school visitation days. We have also sent out a variety of feedback surveys to both prospective students and our feeder school partners.

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

Program/Unit Goals

Ongoing funding needed to support Outreach Aides, Peer Advisors, and Educational Advisors to conduct a variety of outreach activities, including college tours, giving presentations regarding programs and services, developing community relationships and assisting in recruiting students from high schools.

Please add any relevant documents here.

Building Transfer Capacity

Program/Unit Goal

Transition to a more holistic and integrated approach to supporting transfer that includes pathway navigation, support networks, university affordability, and school-life balance.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

Currently, the Norco College Transfer Center aims to provide timely and accurate information about each stage of the transfer journey, from interest in transferring to post-application support. The Transfer Center also hosts Transfer Fairs, presents transfer-focused workshops, and arranges meetings with university representatives. Transfer counseling is provided through the Academic Counseling and Career Development Center.

What are your plans (3-year) regarding this goal?

Within three years, we plan to scale transfer support beyond assisting students with pathway navigation and develop services and resources in the areas of support networks (connecting students with alumni at their transfer schools and helping them connect with support programs at universities), university affordability (assisting students with calculating their total cost of college attendance and accessing financial resources), and school-life balance (ensuring that students receive help with negotiating work, family, and school responsibilities as they transfer and once they arrive at their transfer destination).

Please add any relevant documents here.

Evidence Date

05/13/2024

What progress have you made toward this goal?

How do you measure your progress?

Discuss your evidence/results.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

Program/Unit Goals

The RP Group's "Through the Gate" study revealed that nearly 60,000 California community college students who demonstrate the determination and academic ability to transfer do not make it to university. Surveys and in-depth interviews with over 800 of these students across 31 California community colleges resulted in a holistic framework centered on the four essential factors included in our plan.

https://rpgroup.org/Portals/0/Documents/Projects/ThroughtheGate/Through_the_Gate_Transfer_Study_Description_Aug2017.pdf

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

Additional support would be needed to expand transfer support, including additional Educational Advisors (with the goal of at least one per school) and a Director of Academic Advising and Student Success to implement strategies related to student success and transfer.

Please add any relevant documents here.

Student Financial Stability

Program/Unit Goal

Institutionalize college financial education programming to help students project their total costs of college and learn healthy financial habits related to saving, budgeting, and debt management.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

The Financial Freedom program provides access to self-paced financial literacy software, regular finance workshops, and a financial resource website. This programming teaches students how to save money and create an emergency fund, build a monthly cash flow plan and monitor expenses, and avoid unnecessary debt. These services are currently funded through the college's Title V "PACES" Grant.

What are your plans (3-year) regarding this goal?

Within three years, we plan to have this service fully institutionalized and supported with the funding needed for software and staff. This would include restoring the financial coaching service that was originally part of the program instead of outsourcing financial coaching through external partnerships. It is also planned to expand the financial literacy content beyond just saving, budgeting, and debt management to also include information on student loans, tips for managing credit, understanding financial institutions, financial goal setting, and other topics of student interest.

Please add any relevant documents here.

Mapping

SSIPP Framework: *undefined*

- **Personalized:** Each student receives the type and intensity of support appropriate to his or her unique and diverse needs. (✓)
- **Proactive:** Students are connected to supports at the first sign of trouble, not after a situation builds to a crisis point. (✓)
- **Strategic:** Students are connected to the specific supports they need, when they need them, and in an effective and efficient delivery mode. (✓)
- **Sustained:** Students are supported throughout their full journey at an institution, particularly at key momentum points. (✓)

Progress and Evidence

Evidence Date

05/13/2024

What progress have you made toward this goal?

Program/Unit Goals

How do you measure your progress?

Discuss your evidence/results.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

Data received from over 7,200 Holistic Student Support surveys for incoming students has shown that 43% want to learn about scholarships and other college funding sources, 39% want to learn how to save money, 26% want to learn how to create a budget, 24% would like help with financial aid applications, 18% want to learn about building credit, and 15% want to learn about student loans. Altogether, 71% of incoming students are interested in one or more financial literacy topics.

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

To institutionalize this program, funding is needed for financial literacy software, Educational Advisors to provide financial coaching, and a Director to oversee the program.

Please add any relevant documents here.

Personalized-assessment of disability related needs on a case-by-case basis.

Program/Unit Goal

Ensure DRC students are receiving services relevant to their individual disability-related needs and have the opportunity to engage in interactive processes when these needs are assessed.

Goal Cycle

2024 - 2027

What are you doing now in support of this goal?

Students who apply for services at the DRC office have an initial meeting with a DRC counselor. During this meeting, the student describes their disability-related challenges with the counselor and documentation is reviewed by the counselor. As a result of this interactive process, the counselor determines services which are intended to mitigate the impact of the student's disability. Services are not determined solely on the diagnosis of a student's disability because each student is unique and requires specialized services to support their individual needs. Students can schedule as many follow-up appointments or drop in to the office to revisit these services if they determine they are insufficient or are not having their intended purpose.

If a student has been approved for assistive technology, they can choose to meet with our alternate media coordinator. During this meeting, the alternate media coordinator will determine the student's fluency with technology and recommend specific assistive technology tools that align with both their fluency and their disability-related needs. Students can revisit our office for ongoing training and reassessment of their assistive technology needs.

What are your plans (3-year) regarding this goal?

Our office has already begun the process of bolstering our outreach to local K-12 school districts. During these meetings/events, we describe the onboarding process for incoming DRC students and share the differences from the K-12 system. One of these differences is the ongoing availability of counseling assistance at Norco College to address rapidly evolving needs and challenges. The traditional K-12 Individualized Education Plan (IEP) process typically functions on a set calendar with a limited number of meetings for the student to express their needs and goals. As a result, one of the biggest challenges we see in this individualized approach is the lack of fluency incoming students have with self-advocacy. Our office needs to continue this outreach to better prepare students for the individualized services they will receive here at Norco and the responsibility they have to regularly seek out this individualized care.

In order to offer individualized assessments for each student, our office will need to have counseling services available in multiple modalities and offer these services at times that are conducive to all student learners. Currently, we offer extremely limited counseling services in the evening. This lack of evening availability has impacted our ability to offer the same level of ongoing care and service to our DRC students who prefer or need to take evening and/or weekend courses. Over the next few years we will evaluate our counseling schedule and determine how best to meet the needs of all our student learners.

Program/Unit Goals

Our office will continue to seek out professional development and work with the State Chancellor's Office to determine best practices for serving students with disabilities.

Please add any relevant documents here.

Progress and Evidence

Evidence Date

03/17/2026

What progress have you made toward this goal?

Program/Unit Goals

Over the review period, the DRC worked to integrate the SSIPP framework as a guide to office workflow, student support, and alignment with institutional priorities.

The Disability Resource Center (DRC) has sustained its commitment to providing individualized support for students with disabilities by expanding counseling availability and increasing opportunities for students to engage in the interactive accommodation process. Additional counseling hours and expanded evening appointments have been implemented to ensure continued and consistent access to services for both currently enrolled students and incoming high school students.

The DRC has strategically expanded service delivery to better meet student demand and improve accessibility. This includes increasing the number of personalized appointments available with classified professionals and offering appointments in multiple modalities, including both in-person and Zoom formats. These efforts allow the department to more effectively meet the diverse needs and schedules of students while ensuring equitable access to services.

The DRC strengthened collaboration with local K–12 partners through the development of a CCAP agreement outlining disability-related services for dual enrollment students. This partnership helps integrate disability support services across educational systems and ensures that high school students participating in college coursework are aware of and able to access DRC services. It also aligns with Norco College's Strategic goal of increasing access for our local K-12 partners. DRC counselors conduct regular outreach with local K–12 high school special education programs to strengthen coordination and support the transition from high school to college for students with disabilities. Through collaboration with special education teachers, transition specialists, and district partners, DRC counselors provide presentations, transition guidance, and information about disability services in higher education.

To address growing demand and anticipate future service needs, the DRC is moving forward with the hiring of a second DRC counselor. This additional position will expand the department's capacity to conduct intake appointments, support ongoing student engagement in the interactive accommodation process, and provide timely counseling support to students with disabilities. This proactive approach to providing the personnel needed to support DRC students is a reflection of both the college's commitment to accessibility and the department's demonstrated growth and need for expanded faculty counseling support.

The increase in counseling hours, expanded evening availability, and additional appointments with classified professionals have strengthened the DRC's ability to provide personalized and responsive services. These initiatives ensure that students have multiple opportunities to discuss their disability-related needs, review accommodations, and participate meaningfully in the interactive process that informs their support services. The DRC office provided 924 unique counseling contacts during the 2024-25 academic. The office is currently on pace to offer 1,154 unique counseling contacts during the 2025-26 academic year. This increase is a reflection of both increased DRC student enrollment, and an effort to strategically align counseling availability and appointment modality with student needs. The DRC also participated in the implementation of the VAR (Vision Aligned Reporting) framework to identify the most utilized services in the office. As VAR expands, we will continue to track this information and determine how to utilize this data to address the individualized needs of the students we serve.

Through these efforts, the DRC has strengthened its ability to provide responsive, student-centered services while ensuring students with disabilities have meaningful opportunities to engage in the interactive process that informs their accommodations and support services. We also continue to build strong relationships with our college partners (faculty, classified professionals, administrators) to ensure that accessibility remains an institutional priority.

How do you measure your progress?

Our office utilized a number of measures, some of which are attached to this report: SARS reason code reports, service use tracking (SARS, SAM database, ACCESS database),

Discuss your evidence/results.

Program/Unit Goals

The attached reports demonstrate the increase in the number of students served, contacts made, and services utilized. The CCCC Datamart report for the 2025-26 academic year is incomplete as the year has not yet completed. However, using major term (Fall and Spring) data, there was an 18% increase in DRC student enrollment when comparing Fall 2025 and Fall 2026 (434 students vs 528 students). This increase reflects the proactive and integrated outreach to connect students with DRC services.

Please provide any assessment data or other evidence that supports this Program/Unit Goal.

Is there a resource request associated with this Goal?

Yes

If yes, please provide a short description.

The purchase of assistive technology and other related disability-support platforms will allow the DRC office to better serve students, become more efficient in our service delivery, and tailor our services to the individualized needs of our students.

Please add any relevant documents here.

Information/Publication Review

Please discuss any publications or published information that require regular updates for your area.

Equity Related Professional Development Questions

1. Which equity-related professional development trainings have members of your area participated in to improve student learning, student support, and/or college support?

Holistic Student Support Implementation Network, Student Equity Inquiry Teams, career development training, financial literacy training, equity-related sessions at a variety of conferences.

Over the last several years, individual members and/or the entire Academic Counseling and Career Development Center (ACCDC) have participated in professional development through Flex trainings, conferences, workshops, and community training programs in multiple modalities such as in-person, online, and hybrid. These professional development trainings are listed below:

Flex Trainings: February 5, 2021

The ABC's of DRC: Best Practices in an Online Environment

Mentoring our Mustangs to Success

Bringing Anti-Racism to the Classroom, Part 1

Bringing Anti-Racism to the Classroom, Part 2

Equity in Practice, One Student at a Time: Emotional Support in Lives Marginalized Students

Basic Needs & The Care Network

Bringing Pride to the Classroom: Supporting and Affirming our LGTQ + Students

Flex Trainings: August 18, 2021

DRC Policies and Procedures

Flex Trainings: February 11, 2022

Becoming an Equity-Minded Practitioner

"The homeless crisis in Los Angeles, how can we affect change as educators?"

Mosaic Series RJTF Sawubona: Our Black and African American Students

Flex Trainings: August 17-19, 2022

Steps on the Path: Creating a Pro-Black Culture at Norco College

"Bearing Witness as an Act of Love, Resistance, Hope, and Healing"

"Reimagining Global Education in a Post-Pandemic World: A Study Abroad Guide for Faculty"

The California Association of Black School Educators (CABSE) Conference

Umoja Summer Learning Institute & Conference

Puente Conference: A National Model for Success

Transfer Conference for Counselors

National Career Development Conference (NCDC)

Holistic Student Support Implementation Network

Student Equity Team (SEP)

Racial Microaggressions

Guided Pathway implementation/Schools

Financial Literacy Training

2. What knowledge or skills/techniques have members in your area implemented from these trainings and what changes have you seen?

Through multiple professional development opportunities, individual members and/or the entire Academic Counseling and Career Development Center (ACCDC), have grown in our instructional pedagogy and counseling and advising. Which has enhanced our preparedness of teaching Men of Color, exploring microaggressions, identifying and dismantling inequitable practices, reviewing equity related practices, improving career development, exploring equitable course offerings (online vs in-person), and becoming more accessible to our student population.

Locally there is very limited data, outside of guidance classroom presentations. The following learning outcomes are derived from Nuventive based on the questions below:

SLO - 1 If Andrew is taking 12 units during Spring semester, how many hours a week should he be studying?

Equity

92.2%

SLO - 2 True or False: You apply for transfer a year before? 90.1%

Mastery by Race/Ethnicity listed below:

African-American - 95.2 %

Asian - 92.9%

Filipino - 90%

Hispanic - 91.6 %

Pacific Islander - 80 %

White - 90.8 %

Based on the data above on race/ethnicity, it suggests that the ACCDC has shown mastery in both SLOs. Further data and/or data points are needed to continue to evaluate the skills/techniques that are gained from professional development that helps our diverse student population.

3. What additional equity-related professional development/trainings do you seek to better support your area?

Based on the enrollment data, the spring-term unduplicated headcount continues to grow with an increase of 6.3%. With our steady enrollment growth post covid-19, our student population is steadily increasing and Norco has achieved 101.2% full-time equivalent (FTES) as of March 25, 2024. The steady growth means the entire Academic Counseling and Career Development Center (ACCDC) will need to continue professional development in all areas (academic, postsecondary, and social emotional development) to serve our diverse population. Which would include but are not limited to counseling and advisement, pedagogy improvement, Guided Pathway implementation, career counseling, equity related practices, student needs assessment, improving transfer and retention, financial literacy training/implementation, participation in FLEX events, and CORA implicit bias/microaggression training. Like most of our professional development opportunities, individual and/or entire ACCDC team will attend the growth opportunities as financially fiscal.

Please add any relevant documents here.

Summary of Progress

Input Date

03/18/2026

Reporting Semester(s)

Fall 2025

Summary of Progress

During Fall 2025, 487 new students completed the holistic student support survey embedded in the online orientation.

Reflection on Progress

This is a strong response from new students (since orientation is mandatory for non-exempt students), but also indicates that about 112 students started the orientation and did not complete it nor the holistic student support survey. In addition, a survey for continuing students was created, but has not been broadly distributed yet. More time and effort to embed the continuing student version of the survey is needed to capture student needs throughout their college experience.

Summary of Progress

Input Date

03/18/2026

Reporting Semester(s)

Fall 2025

Summary of Progress

By the end of Fall 2025, 3,847 of the 8,848 enrolled students had a comprehensive education plan on file, representing 43.5% of the enrolled student population. For the career counseling component, a career exploration and planning reason code has been updated and will soon be integrated into the appointment scheduling and reason tracking process.

Reflection on Progress

This percentage of comprehensive plan completion is consistent with past data that hovers around a 44% completion rate without targeted intervention. In Fall 2026, the state will begin to require completion of comprehensive education plans within the first year for all new students, so considerable efforts will need to be made to increase this metric.

Summary of Progress

Input Date

03/18/2026

Reporting Semester(s)

Fall 2025

Summary of Progress

We have not yet identified a method for tracking the percentage of students by school who participate in student engagement events. New regulations went into effect last year classifying student ID numbers as protected information and eliminating our ability to use sign-in sheets during events. As such, events have continued to be offered to students, but we have not been able to accurately capture full attendance data in an effective way.

Reflection on Progress

We need to look into event management software options that will allow for easy RSVP, check-in, and reporting for campus events.

Reporting Semester(s)

Fall 2025

Summary of Progress

In Fall 2025, Peer Advisors / Outreach Aides supported 29 outreach events.

Reflection on Progress

Peer Advisors / Outreach Aides have been very helpful in providing a variety of services, including outreach event support, campus tours, Welcome Center coverage, and outreach via text, e-mail, or phone. As the Educational Resource Advisors have been playing a more involved role in Outreach Services this year, the need to utilize Peer Advisors has somewhat diminished. This was a planned reduction in force for Peer Advisors given that the grant funding about 50% of their wages is scheduled to end in June 2026. Going forward, we will be limited to just the wages available through the Federal Work-Study program, so this reduction in Peer Advisor service volume is proceeding as planned.

03/18/2026

Reporting Semester(s)

Fall 2025

Summary of Progress

This project/goal is complete. Through collaboration between Enrollment Services and Student Services, complete coverage for the Welcome Center has been established during all operational hours. In particular, the additional of Educational Resource Advisors in August 2025 has made a major impact on ensuring coverage for this service area.

Reflection on Progress

Given that Peer Advisor funding is expected to be reduced in 2026-2027, more support from Educational Resource Advisor coverage will be necessary to cover the same number of operational hours going forward. This upgrade in coverage personnel will enhance student services by providing students with direct access to personnel who have access to Colleague, can thorough screen for student issues, and resolve a variety of student concerns without the need to send the student to another department or queue.

Summary of Progress**Input Date**

03/18/2026

Reporting Semester(s)

Fall 2025

Summary of Progress

In Fall 2025, a new Transfer Center scheduling grid was created and new online booking sites for both one-on-one and group appointments were configured. We also launched a new Transfer Center events calendar. Most transfer services have still been focused on pathway navigation (application support, PIQ essays, TAUs, university visits, etc.), and the first workshop focused on university affordability and financial aid will be offered in March 2026.

Reflection on Progress

More configurations will be necessary to code and track different subjects within Transfer Center services and we hope to have those in place before the October-November 2026 transfer application season.

Resource Requests

Computer Resources for General Counseling

Resource Year

2024 - 2027

What resources do we already have?

Unlike the majority of faculty at Norco College, counseling faculty offices are often a shared space between the full-time faculty member and adjunct counseling faculty who provide additional support for students. While each office has a dedicated workstation, the new configuration provided by the college is a docking station with attached laptop computer. While convenient for full-time faculty who wish to travel with their laptop, perhaps to work remotely, the office is unusable once the laptop is removed.

What resources do you need?

We are requesting at least three extra laptop units which are compatible with the office docking stations.

\$ Amount Requested

Resource Type

ITEM: Equipment, Services, Software, Furniture

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Student Services, Goal 7, Objective 7.6 Build and support student services to foster student engagement, wellness, and success in the classroom and outside the classroom.

This request for my area is Priority #:

1

Is this request

New

For Administrative Use Only

Funding Status

Completed/Funded

Notes

One computer funded via year-end GF dollars at the end of 2023-2024. Rationale: With the move to laptop docking stations, when FT faculty telework, they take their laptops with them. This leaves the counseling office without a computer for adjunct users.

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

This is a request to hire a Director, Academic Advising and Student Success. This position aligns with multiple EMP goals related to implementing Guided Pathways, expanding college access, closing equity gaps, sustaining community partnerships, and expanding the Norco College workforce to support a structure that ensures student success. This position would be responsible for the administrative direction and oversight for all functions and activities of Student Success Teams, including educational advising, workshops, career and transfer assistance, onboarding, and intervention programs needed to enhance student persistence and success. In particular, this position would be responsible for ensuring the delivery of high-quality services related to the implementation of Guided Pathways. Associated activities include coordinating a holistic student support process, embedding career and transfer programming into the student journey, as well as making sure students are connected with resources and supports related to physical and mental health, financial stability, and support networks. This request aligns with our Program Unit Goals related to Peer Advising, Holistic Student Support, Student Success Teams, Building Transfer Capacity, and Financial Education.

1 FT grant-funded Employment Placement Coordinator for CTE students

What resources do you need?

1 FT Employment Placement Coordinator for general students

\$ Amount Requested

132,855

Resource Type

STAFF: Classified Professional, Confidential, Mgr

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

This is a request to hire an Employment Placement Coordinator to serve the general student population. For the past three years, the top student need reported by incoming students (14%+) has been employment support. It is our understanding that students request this support for three primary reasons: (1) finding their first job so they can earn income and finance their time in college, (2) finding a different job that works better with their school schedule or increases their hourly wage so they can work fewer hours, and (3) getting work experience in their chosen field of study so they can enhance their career development and prepare to enter the workforce full-time after college. Currently, this support for students and efforts to partner with local employers are limited to students and programs in Career Education. This request is to create an employment support service for general students and aligns with our Program Unit Goals related to Holistic Student Supports, Student Financial Stability, and Support Networks.

BUDGET: Request Ongoing Funding (Support, Mktg)

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

The Norco College Peer Advising model is based on recommendations from the National Academic Advising Association (NACADA, <https://nacada.ksu.edu/Resources/Clearinghouse/Peer-Advising.aspx>). Peer Advisors communicate with students in-person, online, over the phone, via text, and through Live Chat to provide assistance and answer general questions. They serve as college representatives at local schools, community sites, and at on-campus information booths to provide general information about Norco College programs and services. Peer Advisors also provide on-campus tours to new and prospective students, and assist incoming college students with their transition to college, including support with the college application and related onboarding processes. This effort aligns with our Program Unit Goals related to Peer Advising, Welcome Center, Guided Outreach and Onboarding, and Student Success Teams.

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Educational Advisors provide a wide variety of advising support throughout the student journey. At the connection phase, their efforts include outreach, recruitment from high schools, college tours, administering assessment tests, and assisting with the enrollment application. At the entry phase, their duties include providing information about programs, referring and connecting students to college support services, leading students toward the development of an education plan with a counselor, and serving students throughout the matriculation process. At the progress phase, they collaborate with counseling faculty to implement student success workshops and assist students with study skills and student success strategies. At the completion/transition phase, they connect students with university representatives and transfer counselors, coordinate efforts with transfer institutions, and provide information regarding CSU, UC, and private universities. Under the current school-based advising model, three additional Educational Advisors would be needed to be able to dedicate one Educational Advisor to each of the college's eight schools. This effort aligns with our Program Unit Goals related to Guided Outreach and Onboarding, Holistic Student Supports, Student Success Teams, and Building Transfer Capacity.

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

The Norco College Success Network is an effort to engage all students in an active online network while focusing on new student development and communication. Our networking software, Xinspire, allows students to establish a local network of pre-vetted peers, alumni, staff, faculty, and employers. The software involves online discussion boards, information feeds, mentoring groups, an event calendar, and video chat capability. "Mentees" in the system can search for people within the network who have knowledge and experience related to their career and academic goals and who are willing to spend some time providing information and guidance. "Mentors" in the system build relationships with students/mentees to guide them on a journey of self-reliance, successful graduation, and transfer to a four-year institution or job placement. Studies have shown that community college students who integrate both academically and socially at a college are more likely to build an attachment to the institution and persist to the second year. This effort aligns with our Program Unit Goals related to Support Networks and Student Success Teams.

430,000

Resource Requests

Resource Type

BUDGET: Request Ongoing Funding (Support, Mktg)

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Counseling services are critical to the development and success of college students. Title 5 51018 requires that community colleges provide counseling services that consist of academic counseling, career counseling, personal counseling, and coordinate with the counseling aspects of specialized programs such as those providing disability services, financial assistance, and job placement. In addition, Title 5 55524 and 55530 require that students be afforded the opportunity to develop a comprehensive education plan with a counselor and that they be required to do so after they complete 15 semester units. To meet the capacity requirements to meet the demand created by the above services, approximately 3,000 more counseling hours would be needed annually beyond the currently established general fund budget. This effort aligns with our Program Unit Goals related to Guided Outreach and Onboarding, Holistic Student Supports, Student Financial Stability, Student Success Teams, Building Transfer Capacity, and Support Networks.

\$ Amount Requested

28,000

Resource Type

BUDGET: Request Ongoing Funding (Support, Mktg)

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Although many students enter programs internally motivated to succeed and achieve their goals, research indicates that there are several significant factors that can impact student success (Booth et al., 2013; Burns, 2010). Structural supports, like Student Success Teams, allow students to maintain motivation to attain their goals, help students make decisions, and provide comprehensive supports which teach students how to succeed (Booth et al., 2013). The collaboration of Student Success Teams and the resulting presentation of student engagement activities is intended to ensure that each student has a system of support to address the core challenges to their success and help them make progress toward their career and academic goals. As piloted in the 2023-2024 year, student engagement activities are structured as interventions at the various stages of the student journey – connection, entry, progress, and completion/transition – and can consist of activities such as faculty meet-and-greets, demonstrations of student work, guest speakers, alumni panels, and other engaging interactions. This request is for funding to sustain student engagement activities for each school necessary to cover guest speaker contracts, printing costs, food expenses, and supplies. This effort aligns with our Program Unit Goal related to Student Success Teams.

Disability Specialist

Resource Year

2024 - 2027

What resources do we already have?

1 Disability Specialist

What resources do you need?

1 additional Disability Specialist. These classified professionals are tasked with the majority of duties related to providing students with their approved services.

\$ Amount Requested

115,000

Resource Type

STAFF: Classified Professional, Confidential, Mgr

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Resource Requests

As Disability Resource Center enrollment grows, an additional Disability Specialist is needed in order to facilitate the mandated accommodation services. From Fall 2022 to Fall 2023, our enrollment grew by 11% (40 students), each with unique needs. Based on this trend, our overall enrollment for 2023-2024 should exceed 600 students. Given the unique course-taking patterns and individualized needs of students, one disability specialist (our current staffing) is not sufficient to meet these needs. Beyond ensuring the college meets its legal obligations in a timely manner, this goal also supports the following EMP goals: 3: Equity (close all student equity gaps), 7.6: Build and support student services to foster student engagement, wellness and success, 7.7: build and support academic support services to improve student success,

Part-time interpreter

Resource Year

2025 Update

What resources do we already have?

1 interpreter coordinator, and currently utilizing pool of 40 hour interpreters and various interpreter agencies to cover needs of students. These costs are absorbed partially from our DHH allocation from the state. This allocation is not sufficient enough to cover the full costs of these services/employees so the college has contributed funds each year to cover excess costs.

What resources do you need?

4 part-time sign language interpreters

\$ Amount Requested

200,000

Resource Type

STAFF: Classified Professional, Confidential, Mgr

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Resource Requests

Objective 7.6 of the EMP speaks about our commitment to build and support student services to foster student engagement, wellness and success. This request also aligns with our overall program goal to provide reasonable academic adjustments to qualified students with disabilities, in accordance with applicable state and federal anti-discrimination laws such as the ADA, the Rehabilitation Act, and Title 5.. The district has made the decision to move away from our current practice of using hourly interpreters and instead move to hiring part-time interpreters to fill the interpreting needs of students. This transition will be costly for Norco College. We will redirect our current budget to help offset the cost of these part-time interpreters which will be more costly than our current system of using hourly interpreters and/or agencies. However, the new model of hiring part-time interpreters will incur more costs than our current system. The request allows us to move forward with hiring these positions in order to meet our institutional obligation to fill interpreting needs for our DHH population.

Testing Room sound masking/white noise installation

Resource Year

2025 Update

What resources do we already have?

none

What resources do you need?

White noise machine and sound masking tools

\$ Amount Requested

25,000

Resource Type

BUDGET: Facilities Building, Remodel

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Resource Requests

The DRC was recently provided with a permanent testing space in the Humanities building. In order to ensure this room meets privacy needs for DRC students, we need sound masking/white noise tools installed in the classroom. We had not previously requested this resource because we were aware that previous rooms used for testing were not considered permanent testing spaces and we were likely to relocate. However, given that this new space (HUM 102) has been earmarked as a permanent DRC testing space, we are making this request.

Extended test time and distraction reduced testing environment are the most utilized academic adjustments by DRC students. This request ensures that their disability-related needs are being addressed and that their approved academic adjustments meet these needs.

Learning Disability Assessment Kit

Resource Year

2026 Update

What resources do we already have?

NA

What resources do you need?

\$2000

\$ Amount Requested

2,000

Resource Type

ITEM: Equipment, Services, Software, Furniture

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Resource Requests

Providing learning disability assessments allows the DRC office to provide individualized assessment of needs for our students. These assessments then lead to reasonable academic adjustments based on the identified needs of the LD assessment. Further, these assessments are cost prohibitive in the private market; they can cost upwards of \$3000 per assessment. Most of our students are unable to burden that cost and as a result, would not have the opportunity to identify learning challenges and connect those to available resources.

SignGlasses Platform Access

Resource Year

2026 Update

What resources do we already have?

DSPS Categorical funds, which are limited and make it challenging to grow capacity of office services.

What resources do you need?

additional funding to support DHH students

\$ Amount Requested

5,500

Resource Type

ITEM: Equipment, Services, Software, Furniture

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

SignGlasses offers access to an internal platform and scheduling system for an annual cost. The internal platform would allow us to use our current staff interpreter to provide remote interpreting services. Having this system will allow us to better serve our DHH students and create efficiencies in the provision of interpreting services at a time when ongoing interpreter services are becoming difficult to schedule.

DRC Student Success Coordinator PACT/Other program (50%)

Resource Year

2026 Update

What resources do we already have?

The DRC currently has a Student Success Coordinator (50%) through the PACT grant program. The PACT grant allows us to offer intrusive follow up support services to neurodivergent students, who make up a large percentage of our overall DRC student population. These intervention strategies have positive impacts on student success, retention and completion. However, the grant ends in June 2027. This means that without additional funding to support the grant after it sunsets, the DRC will not have the personnel available to continue offering these effective strategies.

What resources do you need?

Funding to support a 50% Student Success Coordinator to continue PACT work after the grant sunsets; the additional benefit of hiring a SSC outside the parameters of the PACT grant is that this staff member will be able to coordinate intervention strategies with all DRC student groups, not just those who qualify under the original terms of the PACT grant (neurodivergent).

\$ Amount Requested

- **Goal 1: Access:** Expand college access by increasing both headcount and FTES (✓)
- **Goal 2: Success :** Implement Guided Pathways framework (✓)
- **Goal 3: Equity :** Close all student equity gaps (✓)

Student Services: Advising and Counseling: *undefined*

Resource Requests

- **Career-focused Developmental Advising:** Drive academic advising through early, embedded, and effective career counseling. (✓)
- **Guided Outreach and Onboarding:** Coordinate with the local community to facilitate structured outreach experiences and a guided onboarding experience for prospective students. (✓)
- **Strategic - Holistic Student Support Surveys:** Scale holistic student support process to all students. (✓)
- **Student Financial Stability:** Institutionalize college financial education programming to help students project their total costs of college and learn healthy financial habits related to saving, budgeting, and debt management. (✓)

Parent Engagement Outreach Workshops

Resource Year

2026 Update

What resources do we already have?

Limited funding from the Title V "Echale Ganas" grant that is slated to end 9/30/26.

What resources do you need?

Funding to provide materials, supplies, and refreshments for high school outreach activities targeted to prospective students and their families. In particular, these workshops would be centered on parent engagement and focused on providing information and answers to the most common questions from families in our community.

\$ Amount Requested

10,000

Resource Type

ITEM: Equipment, Services, Software, Furniture

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Outreach to students and their families is considered a high-impact best practice, with special emphasis on communicating with parents.

Outreach Services Operational Funds

Resource Year

2026 Update

What resources do we already have?

Grant funds from the Promise Program (SPP 051) and the Retention and Enrollment Outreach grant (SPP 044), and general funds to cover one Outreach Aide (student employee), office supplies, and some minor mileage reimbursement.

What resources do you need?

Funding to support more robust Outreach Services functions, including funding for promotional materials, mileage reimbursement for 200+ annual events, meal tickets (providing lunch on high school visitation days), printing costs, and an additional Outreach Aide position.

\$ Amount Requested

50,000

Resource Type

ITEM: Equipment, Services, Software, Furniture

Please summarize how this request supports one or more EMP Goals, Equity goals, your program plans or goals, and/or is supported by outcomes assessment data.

Outreach Services supports multiple institutional goals related to increasing FTES, headcount, and capture rates from feeder high schools.

Resource Request

What resources do we already have?

There are currently 14 full-time counseling faculty. Ten are general counselors, two are 50% reassigned to Umoja and Puente, two are 100% assigned to DRC and EOPS.

Potential Funding Source(s)

Equity
SSSP SEA
General Fund
Guided Pathways
Other/None

What resources do you need?

As we strive to improve our student-to-counselor ratio, we are requesting two additional general counselors to assist with providing counseling and advising services to students in our most popular Schools.

Growth position in existing program

In what sections of your program review can the objectives and justifications for a new faculty hire be found?

Data Review

Faculty Hiring Resource Requests

Statistical Data - Please email Research@norccollege.edu to request assistance with completing questions requesting data, dashboards are under development.

Student Enrollment

Provide the total number of students enrolled in the discipline for each term in the last three years:

General Counseling is available to serve all enrolled students -

20-21: Fall = 10704 / Spr = 9261

21-22: Fall = 9253 / Spr = 8192

22-23: Fall = 10095 / Spr = 10121

Provide the percent capacity/fill rate for each semester in the discipline for the last three years:

N/A

Provide the average class size at Census for each semester for the last three years:

N/A

Provide the efficiency (WSCH/FTEF) for the last three years:

N/A

Instructional Data

Total number of sections offered in the discipline for the primary semesters in the previous year:

N/A

Are any of the sections cross-listed?

N/A

If so, how many?

N/A

Total number of units offered in the discipline for the primary semesters in the previous year:

N/A

Proportion of full-time vs adjunct instruction

Full-time instructors by headcount currently in the discipline:

8

Full-time instructors by FTEF:

8

Associate faculty instructors by headcount currently in the discipline:

12

Associate faculty instructors by FTEF:

22

Total FTEF reassign NOT reoccurring each year (do not include dept. chair):

0

How many additional full-time faculty can this discipline support towards reaching a 75/25 full-time to adjunct ratio?

N/A

Educational Program - Responses should provide detailed information specifically addressing what is asked. This section will be scored as a whole, so please avoid redundancy, there will be no advantage to restating the same information in multiple answers. Please do not include data that is already included in the above sections. Also, the information you provide should reflect justifications in program review sections. (50 Points)

Describe how this discipline/program/unit contributes to the Educational Master Plan with regard to the Goals and Objectives. If relevant to this application, provide data for certificates, degrees, employment opportunities, etc...

This information will be updated in the forthcoming new cycle for Program Review, beginning with the 2024 year. For now, please refer back to the existing document which details how Guidance instruction and Counseling relate to the various EMP's.

Faculty Hiring Resource Requests

Indicate what this new hire will contribute to your department or discipline that currently cannot be accomplished by the existing faculty.

This information will be updated in the forthcoming new cycle for Program Review, beginning with the 2024 year. For now, please refer back to the existing document which details how Guidance instruction and Counseling relate to the various EMP's.

Explain the impact this hire will have on other disciplines, programs, and the college.

This information will be updated in the forthcoming new cycle for Program Review, beginning with the 2024 year. For now, please refer back to the existing document which details how Guidance instruction and Counseling relate to the various EMP's.

Explain the impact if this faculty position is NOT hired.

Counseling services for enrolled students will continue to be offered at a disadvantage and non-compliant with the ASCCC and state's guidelines

Please describe any other factors not already addressed that reinforce the need for a full-time faculty hire.

This information will be updated in the forthcoming new cycle for Program Review, beginning with the 2024 year. For now, please refer back to the existing document which details how Guidance instruction and Counseling relate to the various EMP's.

Please add any relevant documents here.

Instructional Summary - Complete this section for Instructional Faculty only

1. How many additional full-time faculty can this discipline support towards reaching a 75/25 full time to adjunct ratio?
2. How many approved hires within this discipline are currently unfilled?
3. How many growth positions in this discipline are being requested and prioritized before this position?
4. Complete the calculation = $(1-2-3) =$
5. How many full-time faculty were employed in the discipline in the most recent Fall term?
6. Department Relative need total:

Counseling Summary - Complete this section for Counseling Faculty only

1. The number of students for the most recent Fall term relevant to your program.
10195
2. How many full-time faculty are in your discipline, including retiring faculty?

Program Review Reflections

What would make program review meaningful and relevant for your unit?

Program Review is meaningful to this unit for many reasons. First, the Program Review process requires our service area to collaborate and discuss available data, current needs, and future plans. Second, the Program/Unit Goals section allows us to declare a variety of broad three-year goals (in this case 11 goals), align them with the SSIPP Framework, and then use these goals as a guidepost for all efforts, projects, assignments, and resource requests over the next three years. Third, the Assessment section of Program Review will allow us to document our progress and outcomes as we work to pilot new services and achieve our goals.

What questions do we need to ask to understand your program plans, goals, needs?

In year one of Program Review, the focus of questions should be on what steps have been taken toward each of the goals. For the Advising and Counseling area, progress has been made toward each of the 11 stated goals. We do not yet have outcomes to report for these goals, but can share that there have been considerable efforts related to increasing staffing, enhancing technology, restructuring services, and working with the District to establish a Standard of Care. This work has included recruitments to replace vacant positions and hire new positions, configuration of software platforms to automate certain processes and expand capabilities, the launch of an ongoing data collection survey, and collaboration with other departments to strengthen support in outreach functions and at the Welcome Center.

What types of data do you need to support your program plans, goals, needs?

To support our program goals, we will need a variety of updated, readily-accessible, student-level data. Based on the pilot project of the "NC School Outreach" PowerBI dashboard, we learned a lot about the increased capabilities when student data is updated daily and can be downloaded and filtered for a variety of purposes. We have used this data to learn about our student population, drive an interest toward cleaning up our data, and reach out to targeted populations. Going forward we would like to expand the availability of such dashboards to include (1) an expanded school-based student data dashboard that indicates which special programs students participate in, (2) a transfer-oriented dashboard so we can track student progress toward and readiness for transfer, and (3) a Promise Program dashboard that provides all of the information needed to screen student eligibility and expand the service to all first-time full-time students.

We will also need to reconfigure the SARS software reason codes and build a variety of local practices that help us collect data differently regarding student interactions and participation in services.

Finally, in late 2024, we launched a universal Student Services Feedback Survey to help track each of 34 area's progress toward SSIPP-aligned services. We will need help from Institutional Research next academic year with processing and visualizing the data so it can be used by each area to understand how students experience their services and where there are areas in need of improvement.

If there are any supporting documents you would like to attach, please attach them here.

Submission

All parts of my Program Review have been completed and it is ready for review.

Yes
