# Annual Instructional Program Review Update

## Instructions

**\*Please retain this information for your discipline's/department's use (or forward to your chair).**

The Annual Self-Study is conducted by each unit on each college and consists of an analysis of changes within the unit as well as significant new resource needs for staff, resources, facilities, and equipment. It should be **submitted in draft every year by March 15th** (or the first working day following the 15<sup>th</sup>), with final drafts due on **April 29th**, in anticipation of budget planning for the fiscal year, which begins July 1 of the *following* calendar year.

**For Program Review data, please go to the following link:**

<http://www.norcocollege.edu/about/president/strategic-planning/programreview/Pages/index.aspx>

The questions on the subsequent pages are intended to assist you in planning for your unit.

The forms that follow are separated into pages for ease of distribution to relevant subcommittees. **Please keep the pages separated** if possible (though part of the same electronic file), **with the headers as they appear**, and be sure to include your unit, contact person (this may change from topic to topic) and date on each page submitted. Don't let formatting concerns slow you down. If you have difficulty with formatting, Nicole C. Ramirez can adjust the document for you. Simply add responses to those questions that apply and forward the document to [nicole.ramirez@norcocollege.edu](mailto:nicole.ramirez@norcocollege.edu) with a request to format it appropriately.

If you cannot identify in which category your requests belong or if you have complex-funding requests please schedule an appointment with your college's Vice President for Business Services right away. They will assist you with estimating the cost of your requests. For simple requests such as the cost of a staff member, please e-mail your Vice President. It is vital to include cost estimates in your request forms. Each college uses its own prioritization system. Inquiries regarding that process should be directed to your Vice President.

## **Mission**

Norco College serves our students, our community, and its workforce by providing educational opportunities, celebrating diversity, and promoting collaboration. We encourage an inclusive, innovative approach to learning and the creative application of emerging technologies. We provide foundational skills and pathways to transfer, career and technical education, certificates and degrees.

## **Vision**

Norco – creating opportunities to transform our students and community for the dynamic challenges of tomorrow.

## **Goals and Strategies 2013-2018**

### **Goal 1: Increase Student Achievement and Success**

Objectives:

1. Improve transfer preparedness (completes 60 transferable units with a 2.0 GPA or higher).
2. Improve transfer rate by 10% over 5 years.
3. Increase the percentage of basic skills students who complete the basic skills pipeline by supporting the development of alternatives to traditional basic skills curriculum.
4. Improve persistence rates by 5% over 5 years (fall-spring; fall-fall).
5. Increase completion rate of degrees and certificates over 6 years.
6. Increase success and retention rates.
7. Increase percentage of students who complete 15 units, 30 units, 60 units.
8. Increase the percentage of students who begin addressing basic skills needs in their first year.
9. Decrease the success gap of students in online courses as compared to face-to-face instruction.
10. Increase course completion, certificate and degree completion, and transfer rates of underrepresented students.

## **Goal 2: Improve the Quality of Student Life**

### Objectives:

1. Increase student engagement (faculty and student interaction, active learning, student effort, support for learners).
2. Increase frequency of student participation in co-curricular activities.
3. Increase student satisfaction and importance ratings for student support services.
4. Increase the percentage of students who consider the college environment to be inclusive.
5. Decrease the percentage of students who experience unfair treatment based on diversity-related characteristics.
6. Increase current students' awareness about college resources dedicated to student success.

## **Goal 3: Increase Student Access**

### Objectives:

1. Increase percentage of students who declare an educational goal.
2. Increase percentage of new students who develop an educational plan.
3. Increase percentage of continuing students who develop an educational plan.
4. Ensure the distribution of our student population is reflective of the communities we serve.
5. Reduce scheduling conflicts that negatively impact student completion of degrees and programs.

## **Goal 4: Create Effective Community Partnerships**

### Objectives:

1. Increase the number of students who participate in summer bridge programs or boot camps.
2. Increase the number of industry partners who participate in industry advisory council activities.
3. Increase the number of dollars available through scholarships for Norco College students.
4. Increase institutional awareness of partnerships, internships, and job opportunities established with business and industry.
5. Continue the success of Kennedy Partnership (percent of students 2.5 GPA+, number of students in co-curricular activities, number of students who are able to access courses; number of college units taken).
6. Increase community partnerships.
7. Increase institutional awareness of community partnerships.
8. Increase external funding sources which support college programs and initiatives.

## **Goal 5: Strengthen Student Learning**

Objectives:

1. 100% of units (disciplines, Student Support Service areas, administrative units) will conduct systematic program reviews.
2. Increase the percentage of student learning and service area outcomes assessments that utilize authentic methods.
3. Increase the percentage of programs that conduct program level outcomes assessment that closes the loop.
4. Increase assessment of student learning in online courses to ensure that it is consistent with student learning in face-to-face courses.
5. Increase the number of faculty development workshops focusing on pedagogy each academic year.

## **Goal 6: Demonstrate Effective Planning Processes**

Objectives:

1. Increase the use of data to enhance effective enrollment management strategies.
2. Systematically assess the effectiveness of strategic planning committees and councils.
3. Ensure that resource allocation is tied to planning.
4. Institutionalize the current Technology Plan.
5. Revise the Facilities Master Plan.

## **Goal 7: Strengthen Our Commitment To Our Employees**

Objectives:

1. Provide professional development activities for all employees.
2. Increase the percentage of employees who consider the college environment to be inclusive.
3. Decrease the percentage of employees who experience unfair treatment based on diversity-related characteristics.
4. Increase participation in events and celebrations related to inclusiveness.
5. Implement programs that support the safety, health, and wellness of our college community.

## Trends and Relevant Data

### 1. Have there been any changes in the status of your unit? (if not, please indicate with an “N/A”)

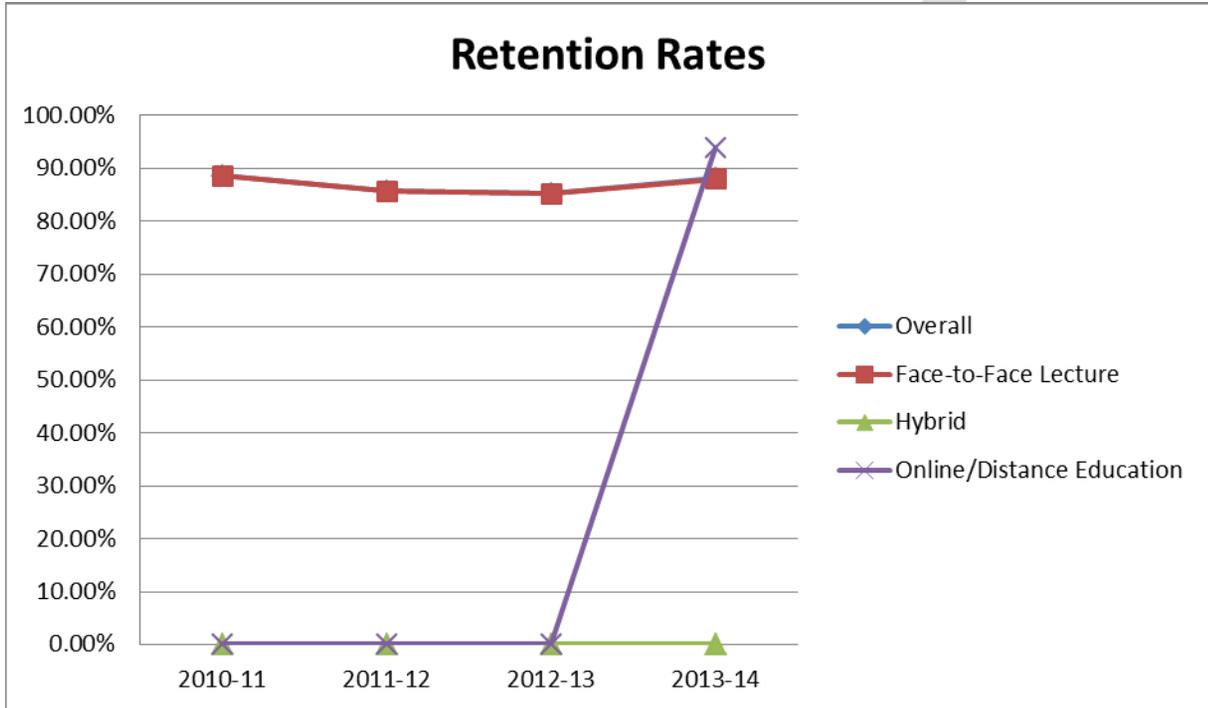

- a. Has your unit shifted departments? N/A
- b. Have any new certificates or complete programs been created by your unit? Associate Degree for Transfer in history is in the process of being approved.
- c. Have activities in other units impacted your unit? For example, a new Multi Media Grant could cause greater demand for Art courses.  
N/A

2. List your retention and success rates as well as your efficiency. Have there been any changes or significant trends in the data? If so, to what do you attribute these changes? Please list Distance Education, retention, success and efficiency separately.

History is consistently a major contributor to efficiency, retention, and success rates at Norco. Retention is high and stable, as is efficiency, with occasional outliers in winter and summer, which in recent years have often been based on only one course. Success rate is also relatively stable in the low 70 percent, after taking what appears to be a temporary dip of 5.5% in 2013.

**3. What annual goals does your unit have for 2014-2015 (please list the most important first)? Please indicate if a goal is directly linked to goals in your comprehensive. How do your goals support the college mission and the goals of the [Educational Master Plan](#)?**

## II. Norco College - Annual Assessment Update

**Purpose** – The purpose for completing an annual review is to provide an opportunity for reflection on all that has been accomplished and learned from your efforts in assessment. Assessments conducted in isolation from each other will yield interesting, important, or neutral information in and of themselves, but taking a holistic look back on the unit’s accomplishment over the past year might also yield some insight. The annual review is a time to take stock of which courses and programs have undergone some scrutiny, and subsequently should help with planning for the upcoming year. This planning might include considering which other courses are ready for an initial assessment, or which might need a loop-closing assessment. Things we might learn in one cycle of assessment might actually help us to plan assessments in the next cycle, or might facilitate changes in other courses that weren’t even included in the initial assessment. To this end, please complete the following with as much detail as possible. If you have any questions, please contact either Sarah Burnett at sarah.burnett@norcollege.edu, or Greg Aycock at greg.aycock@norcollege.edu.

1. Identify where you are in the cycle of SLO assessment for each course you assessed over the past year (*fall 2013 - spring 2014*). Each response will be individualized; this means each completed column might look a little different due to the nature of the cycle of assessment in which we engage. For example, you may have a course in which you are implementing improvements to close the loop on an initial assessment that was completed in a different year. You might also have a course that only has an initial assessment with report and you haven’t yet completed any follow-up or improvement activities. Below you will see an example of how to fill in this section, and then a blank chart for your own responses.

Course number and name	SLO <i>Initial Assessments</i> and completed <b>Reports</b> (State each SLO e.g., SLO 1)	SLOs with <i>Improvements identified</i> (Identify the SLO with # of improvements in ( ) e.g., SLO 1(1), or SLO 3(0) )	SLOs not needing improvement (assumed loop-closed), with clear reasoning as to why	SLOs involved in <i>Loop-Closing</i> assessment (state SLO and effect)
EAR 20 Child Development	SLO 1, SLO 3 (Indicates the discipline assessed and wrote a report for both SLO 1 and 3 in the past year for this course)	SLO 1(2) (Indicates 2 adjustments were made to the course e.g., in materials, assignment, test questions, pedagogy, curriculum etc. Notice, nothing is stated for SLO 3 – suggesting no concerns were identified...see the next column...)	SLO 3 – results meet discipline set standards of 75% success (If no improvement is needed please state why in this column)	SLO 1 – data indicate increased success after improvements were made (This means a closing the loop assessment was completed on SLO 2 for EAR 20)

3. Please describe any changes you made in a course or a program as a response to an assessment. Please indicate the impact the changes had on student learning, student engagement, and/or your teaching.

**US History 6:**

All sections of History 6 ( US History to 1877) were assessed in Fall 2013 for the GE PLO Global Awareness. This was an initial assessment, so what follows is an analysis of results, and plans for improvement.

All sections of History 6 were assessed for SLOs focused on the ability to:

SLO1) describe, interpret, and assess historical information

SLO2) identify the various sources of historical information

SLO3) understand the nature of historical processes

SLO4) describe the origin, development, and influence of political, economic, and social movements

**Method**

We assessed students’ ability to achieve the above SLOs on a topic that combines political, economic, and social elements of a movement. Instructors use whatever methods they prefer to present material on that topic. Instructors used a variety of methods, including lecture, class discussion, solving puzzles on the topic, and having students explain the issues to each other. Instructors included five multiple-choice questions in common on the final test.

**Analysis of Results and Plans for Improvement**

In History 6 that fall 197 students answered the assessment questions, and scored an average of 70% . Review of the data shows that students were :

1. Very good at identifying a historical source (SLO 2 above)
2. Good at understanding the nature of historical processes (SLO 3 above)

However, students still had problems:

3. describing significant historical information accurately (SLO 1 above)
4. describing the origin and influence of a political, economic, and social movement (SLO 4 above)

HIS 6 Fall 2013						
Question #	1. identify source	2. nature of hist. process	3. describe hist. info	4. origin of movement	5. influence of movement	Total Average
% correct	87%	70%	66%	65%	62%	70%

#students 197

Students had the most difficulty on questions 4 and 5 (SLO4) describing the origin and influence of a political, economic, and social movement. This is not surprising. It is our first time assessing students on this topic, on this SLO, and using common questions on the final. The data show that students are strong on understanding cause and effect when the answer is a single factor (question 2, 70%) but have difficulty grasping multi-factor causes and effects (question 4 and 5, 65% , 62%), as is usually the case with the origin and influence of political, economic, and social movements. Understanding a group of causes requires greater knowledge and a more nuanced comprehension. It calls for a higher skill level.

The negative results on question 3 (SLO1) describing historical information, were an anomaly compared to results in the past several years. Most likely this is because the assessment topic and instrument are new to all instructors. We are just now finding out the weak spots on this topic. Apparently students are confused about where certain events took place. In 2011 and 2012 assessment of this SLO in all History 7 (US History since 1877) sections using a different topic and assessment instrument, we found an 8% increase in the overall average of correct answers after we included maps. Following our success in History 7, we are planning to add maps, when instructors present this History 6 topic in the future. In order to improve our results in describing the origin and influence of political, economic, and social movements (SLO4), we are planning to spend more time emphasizing the issues and multiple cause and effect when instructors present the material in lectures and discussions in the future. We will implement this plan, and assess it in Fall 2014, which follows our normal cycle.

#### **GE PLO on Global Awareness**

In Fall 2013 the same five questions on a final test also assessed student achievement of GE PLO Global Awareness. The questions focused on their awareness of diversity and various cultural viewpoints. The 70% average on all five questions indicates that the students have a competent understanding in global awareness. We expect this score to improve when we implement the plans listed above.

4. Can you identify any assessments that have prompted a change in perspective in the manner in which your discipline should modify the Course Outlines of Record (COR) or the Student Learning Outcomes (SLO)? Please expand on what you think should be modified. N/A
5. Have you shared your assessments, outcomes, improvements etc. with your discipline? How? If not, how do you plan to do so in the future? I spoke about the results with every instructor involved, and we discussed the reasons for the trouble with SLO1 and SLO4, and plans for improvement. The above discussion of analysis of results and plans for improvement is based on a consensus of their opinion.

6. Did any of your assessments indicate that your discipline or program needs additional resources to support student learning? If so, please explain.  
A new full-time faculty member would help enhance the development and implementation of assessment, and thereby student success.
  
7. What additional support, training, etc. do you need in the coming year regarding assessment?

Is this the initial assessment or follow-up (closing the loop)?     Initial     Follow-up

1. Please write a short narrative summary of the data collected for the course SLO(s). Were you generally satisfied with the results? In which areas or SLOs (if you assessed more than one) did the data indicate students had the most difficulty? To what do you attribute that difficulty? Which areas or SLOs did they find themselves achieving with greatest success? **Please attach assessment instrument (and/or rubric) and data summary files (spreadsheets, tally sheets, etc) to this report.**

### US History 1:

In Fall 2013 I assessed History 1 (world civilizations to the 16<sup>th</sup> century) for SLOs focused on the ability (SLO2) to identify the various sources of historical information; and (SLO3) to evaluate primary historical documents.

### Method

I assessed students' ability to analyze primary sources, an important type of historical information that requires critical thinking. I presented the document by lecture, class discussion, and helping students annotate the document. Students then took a 10 question multiple choice test, which contains a clean copy of the document.

### Results

In History 1 that fall 44 students took the assessment test and scored an average of 78%. Review of the data shows that students were :

1. Very good at distinguishing between a primary and a secondary source
2. Good at interpreting arguments internal to the document, thanks to our efforts at annotation

However, students:

3. Had problems understanding the historical background or setting of the document

**2. If this is an initial assessment**, what are some suggestions for improving learning in the course the next time it's taught? What advice would you offer to the next faculty member(s) who teaches the course, based on data and experience teaching the course?

It appears that students did so well in interpreting internal arguments in the document because we annotated the document together in class. Over the past several years in History 6 and 7 (US History) we found out similarly that annotating the document is a valuable teaching tool. The next time I teach the course I plan to

emphasize the historical background of the dynasty under which the document was written. If students understood the features of the dynasty better, they could answer more questions on the historical background, where they are weak. Good comprehension of the historical background is crucial to evaluating any historical document.

3. **If this is a follow-up (closing the loop)**, did the changes that were made to the course result in improvement of student learning from the first assessment? If so, how? If not, why did improvement not occur? What advice would you offer to the next faculty member(s) who teaches the course, based on data and experience teaching the course?

4. What suggestions, if any, do you have for modifying the course outline of record and/or the SLOs for the course

### US History 6:

All sections of History 6 ( US History to 1877) were assessed in Fall 2013 for the GE PLO Global Awareness. All sections were also assessed for SLOs focused on the ability to:

- 1) describe, interpret, and assess historical information
- 2) identify the various sources of historical information
- 3) understand the nature of historical processes
- 4) describe the origin, development, and influence of political, economic, and social movements

### Method

We assessed students' ability to achieve the above SLOs on a topic that combines political, economic, and social elements of a movement. Instructors use whatever methods they prefer to present material on that topic. Instructors used a variety of methods, including lecture, class discussion, solving puzzles on the topic, and having students explain the issues to each other. Instructors included five multiple-choice questions in common on the final test.

### Results

In History 6 that fall 197 students answered the assessment questions, and scored an average of 70% . Review of the data shows that students were :

1. Very good at identifying a historical source (SLO 2 above)
2. Good at understanding the nature of historical processes (SLO 3 above)

However, students still had problems:

3. describing significant historical information accurately (SLO 1 above)
4. describing the origin and influence of a political, economic, and social movement (SLO 4 above)

Students had the most difficulty on questions 4 and 5 (SLO4) describing the origin and influence of a political, economic, and social movement. This is not surprising. It is our first time assessing students on this topic, on this SLO, and using common questions on the final. The data show that students are strong on understanding cause and effect when the answer is a single factor (question 2, 70%) but have difficulty grasping multi-factor causes and effects (question 4 and 5, 65% , 62%), as is usually the case with the origin and influence of political, economic, and social movements. Understanding a group of causes requires greater knowledge and a more nuanced comprehension. It calls for a higher skill level.

## **GE PLO on Global Awareness**

In Fall 2013 the same five questions on a final test also assessed student achievement of GE PLO Global Awareness. The questions focused on their awareness of diversity and various cultural viewpoints. The 70% average on all ten questions indicates that the students have a competent understanding in global awareness.

**2. If this is an initial assessment**, what are some suggestions for improving learning in the course the next time it's taught? What advice would you offer to the next faculty member(s) who teaches the course, based on data and experience teaching the course?

The negative results on question 3 (SLO1) describing historical information, were an anomaly compared to results in the past several years. Most likely this is because the assessment topic and instrument are new to all instructors. We are just now finding out the weak spots on this topic. Apparently students are confused about where certain events took place. In 2011 and 2012 assessment of this SLO in all History 7 (US History since 1877) sections using a different topic and assessment instrument, we found an 8% increase in the overall average of correct answers after we included maps. Following our success in History 7, we are planning to add maps, when instructors present this History 6 topic in the future. In order to improve our results in describing the origin and influence of political, economic, and social movements (SLO4), we are planning to spend more time emphasizing the issues and multiple cause and effect when instructors present the material in lectures and discussions in the future.
