### 3.1 2025/26 Annual Budget Priorities Draft Review – Michael Collins (Handout)

- In compliance with all regulations and laws, and alignment with Norco College's strategic plan goals of Student, Regional, and College Transformation, the College will primarily focus its resource allocation on the following strategic objectives. These budget priorities will help quide resource request funding allocations directly related to NC program review: (each area detailed in handout)
  - Budget Context
  - Student Transformation
  - Regional Transformation
  - College Transformation

- A motion was made to change this item to an action item (the document was provided to the councilmembers for review 4 days prior to the meeting)
  - M/S/C: Virgil Lee/ Edwin Romero
  - o Abstentions: 0
  - Amendments: Change 2% and 10% to FTES
    - Dr. Collins will make the changes to the document and it will be sent to College Council as recommended.
- Comments/Questions:
  - What is the origin of the document? It was noted this originates with our Resources Council as a recommendation, then moves to College Council for approval.
  - Are there fundamental differences between this year's version and last year's version? Student Transformation was looked closely to align with our Strategic Plan. Engagement with the community will also be focused on in celebrating the upcoming 35<sup>th</sup> year college anniversary.
  - This document can be used as a guide for future budget allocation decisions as needed.

• Counseling areas have to meet the student needs, while working within the allocated budget.

- Questions/Comments:
  - Rearging the district allocation for standard of care, has there been any discussion to formulate a further plan to distrbute money? These are still on going discussions at the district-level, and the draft idea/plan will eventually be brought to the colleges soon.
  - Will Grant funds be included? At this time we are not sure of exactly what will be included and of course some grants will still have a higher standard of care allocation written into the grant proposals that if awarded, must be adhered to.

# **4.2 Facilities Updates – Michael Collins** (Handout)

# 4.2.a. Center for Human Performance and Kinesiology (CPH&K) Building

- The new Center for Human Performance and Kinesiology will address a crucial need at Norco College, enhancing the health and wellness opportunities for students, faculty, and the local community. Currently, our campus lacks adequate facilities to offer essential Physical Education courses, limiting the growth of our programs. The absence of a gymnasium means we can't provide popular activities such as basketball, badminton, and volleyball, forcing many high-demand courses to share space in modular trailers.
- This lack of facilities has also hindered our athletics program, which currently offers only two sports: soccer and cross country. With the new gymnasium and associated support programs, we aim to launch competitive teams in basketball and volleyball, allowing us to better serve our students and expand athletic opportunities.
- Additionally, we envision the Center becoming a hub for health and wellness in the community, hosting public education events and local sports tournaments. The design features flexible exercise studios without fixed furniture, allowing for a variety of physical education courses and activities. Movable partitions will create adaptable room sizes to meet different needs.
- Outdoor learning spaces will extend classroom activities into the fresh air, accommodating various conditions and reducing overcrowding. The layout also ensures easy access for game days and community events. Lastly, a lounge and entry commons will provide a welcoming space for collaboration, meeting, and learning, fostering a sense of community.
- Overall, this new facility will not only enhance our educational offerings but also strengthen our role as a resource for health and wellness in the region.

- The project was initiated in 2015-2016, we were approved for funding back in 2018, but the district did not have the match needed at that time.
- The new center will replace CACT and W1-W2, and W8. WEQ will be taken offline and reviewed for tear-down or repurposement if the structures are deemed safe/stable.
- The CACT building will be demolished and the classes/offices will be moved to other areas on campus, but mainly to the STEM building
- Next step is starting the recruitment process for a general contractor. A ground breaking ceremony will be scheduled for the end of May.
- Additional funding needed for additional utility/plumbing needs, custodial/grounds staffing, etc.

# 4.2.b. STEM Building Remodel (Relocation for CACT Building)

- Clarification: No new buildings will be added to the existing STEM center, we are just remodeling the existing infrastructure.
- STEM remodel begins in June 2025, with the target completion date of December 30, 2025. The CACT relocation of machine shop, offices, and classes will then move in winter 2026.
- The MESA and Rocketry programs will be relocated from STEM to: TBD
- During this project we will also be upgrading the chillers on campus as well

# 5. Good of the Order

### • Reminder for RC councilmembers to complete the "Survey of Effectiveness"

- Survey submission is due by March 14, 2025
- Results will be tallied and "Report of Effectiveness" will be reviewed at March meeting
- Each councilmember is encouraged to take the time to fill out this very important survey
- A question was raised about the bond process. Bond funding comes in increments as they sell off the bond with a special rate of return, the district then gets the funds. The match needed by the district for the CHP&K building, has still yet to be determined.
- A question was raised about the status of the secondary entrance. This issue has not been addressed and is still in discussions. There is currently no movement on if/how/or when any planning will take place.

# 6. Adjournment: 1:54pm

### Fall 2024 and Spring 2025 Meeting Dates:

# 2025-2026 NORCO COLLEGE BUDGET PRIORITIES

In compliance with all regulations and laws, and alignment with Norco College's strategic plan goals of Student, Regional, and College Transformation, the College will primarily focus its resource allocation on the following strategic objectives.

These budget priorities will help guide resource request funding allocations directly related to NC program review.

### BUDGET CONTEXT

- The Proposed State budget includes funding for 0.5% enrollment growth.
- The Norco College FTES target for 2025-26 is set at:
  - 5% Credit FTES growth, 7,591.93 FTES
  - Non-Credit FTES, 65 FTES
  - 10% Special Admit FTES growth (989 FTES)
  - 2% Incarcerated FTES growth (311 FTES)
- The Proposed State budget does not include funding for PPIS (physical plant and instructional support).
- The College will strategically assess enrollment performance in programs and financial performance in non-instructional and instructional areas in order to maximize the utilization of resources.

### STUDENT TRANSFORMATION

• Fund the implementation of the college's strategic enrollment management (SEM) plan to attract and retain students and maximize efficient FTES generation to meet established targets and provide access. The SEM Plan provides the operational framework for scaling Guided Pathways from access to completion, with a focus on closing all student equity gaps. Strategic goals in access, equity, and success provide the foundation for the SEM plan to ultimately prepare students for living-wage careers.

### **REGIONAL TRANSFORMATION**

 Pursue, develop and sustain collaborative partnerships. Focus on relationships and growing the College's comprehensive service to the community as the college moves toward the College's 35<sup>th</sup> Anniversary.

### **COLLEGE TRANSFORMATION**

- Strategic investment in college personnel to sustain an excellent workplace culture, including the strategic evaluation of personnel replacements and additions.
- Develop/improve physical facilities to build a more comprehensive and inspiring campus.
- Implement technology-enhanced operational systems.
- Strategic investments to increase resource development and revenue generating activities.

# NORCO BUDGET ALLOCATION MODEL

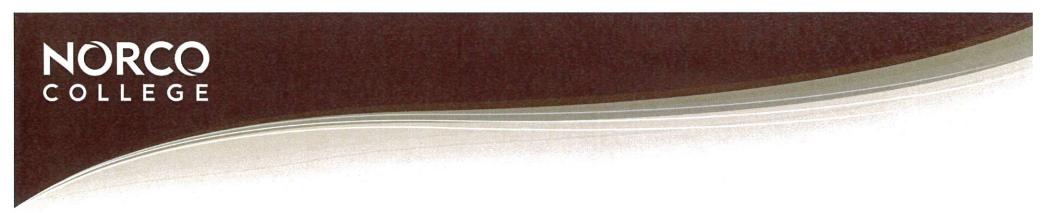

The Revised Budget Allocation Model was developed to allocate resources around the following core principles:

- Fair Resource allocation decisions will be informed by objective, predictable, verifiable, and easily accessible data and will be made in an impartial and consistent manner.
- Equitable Resources will be distributed in an manner that adequately supports the full array of programs offered at each college while ensuring compliance with statutory and regulatory requirements; efficient and strategic use of resources is expected, and inefficiencies will not be subsidized or supported.
- **Transparent** Resource allocation decisions will be made in an open and consultative manner with representative stakeholder groups and that it is simple, easy to administer and communicate as possible.

# NORCO TO DO" TASK IN 2024-25

Develop a treatment for "District Operations" costs – In progress

- BAM Phase IV- District Allocation, work group has:
  - Reviewed accreditation standards functional maps.
  - Reviewed service level expectation between the District and our Colleges.
  - Have reviewed the percentage of expenditure budgets and actuals for each college to total District Budget.
  - Will review the percent of expenditure budget and actuals for each college to total District budget excluding one-time funds.
- Implement College BAM- In progress
  - Analyze and implement Instruction and Non-Instructional efficiencies.
  - Analyze deficits & surpluses- consider Budget reallocation in areas of strategic needs.
  - Use Data and Metrics to make budget decisions.
  - The College VPs shared the NC Budget Allocation Model guiding principles with DBAC.

### Norco College Center for Human Performance and Kinesiology (CHP&K) Building

The new Center for Human Performance and Kinesiology will address a crucial need at Norco College, enhancing the health and wellness opportunities for students, faculty, and the local community. Currently, our campus lacks adequate facilities to offer essential Physical Education courses, limiting the growth of our programs. The absence of a gymnasium means we can't provide popular activities such as basketball, badminton, and volleyball, forcing many high-demand courses to share space in modular trailers.

This lack of facilities has also hindered our athletics program, which currently offers only two sports: soccer and cross country. With the new gymnasium and associated support programs, we aim to launch competitive teams in basketball and volleyball, allowing us to better serve our students and expand athletic opportunities.

Additionally, we envision the Center becoming a hub for health and wellness in the community, hosting public education events and local sports tournaments. The design features flexible exercise studios without fixed furniture, allowing for a variety of physical education courses and activities. Movable partitions will create adaptable room sizes to meet different needs.

Outdoor learning spaces will extend classroom activities into the fresh air, accommodating various conditions and reducing overcrowding. The layout also ensures easy access for game days and community events. Lastly, a lounge and entry commons will provide a welcoming space for collaboration, meeting, and learning, fostering a sense of community.

Overall, this new facility will not only enhance our educational offerings but also strengthen our role as a resource for health and wellness in the region.

# Norco College Center for Human Performance and Kinesiology

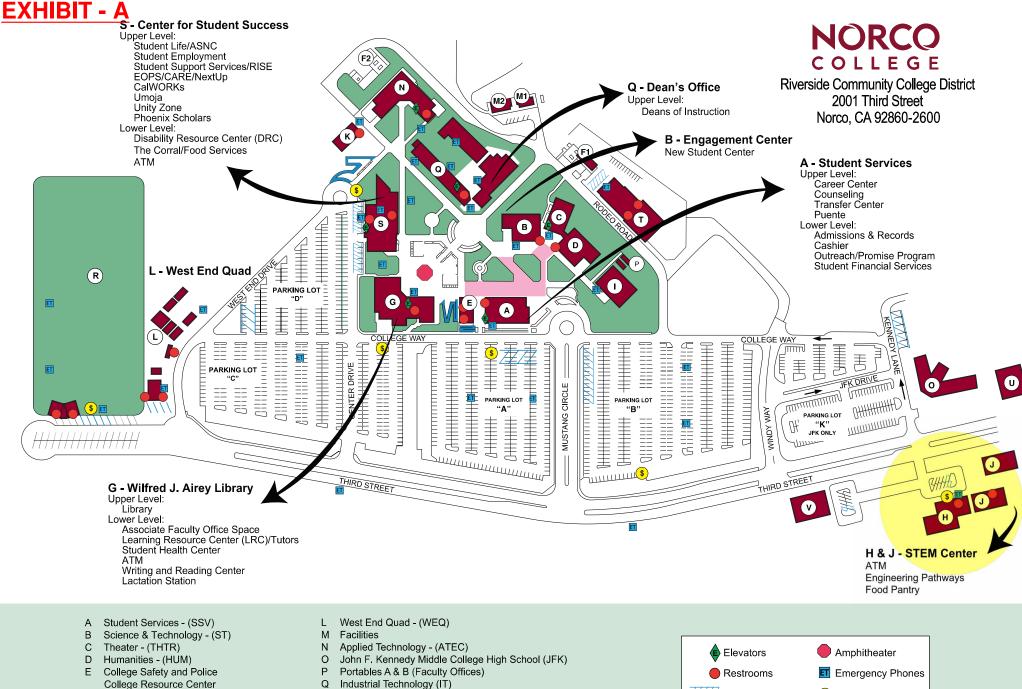

The new Center for Human Performance and Kinesiology fulfills a very specific need on campus related to the health and wellness of students and faculty as well as the local community. In its current state, the campus lacks space to offer the most basic of Physical Education courses and activities which has limited growth by precluding courses that are key to the expansion of the program. The College lacks a gymnasium which prevents the offering of popular activity courses such as basketball, badminton and volleyball. Many high-demand physical education courses share space in modular trailers at the moment. Additionally, the lack of facilities has limited the development and growth of their athletics program. Currently, the College can only offer its students two sports, soccer and cross country. The new gymnasium and support programs will enable them to initiate competitive teams in basketball and volleyball to better serve their students. Finally, the College has ambitions of becoming a health and wellness resource for their community, reaching out through public education events and through hosting local sports tournaments.
