

Aaron Eastwood

Associate Faculty, Music Industry Studies
Intro to Music Technology: Pro Tools

NORCO COLLEGE SCHOOL OF
Arts &
Humanities

Aaron Eastwood, a native of Riverside, California, joined the Music Industry Studies department in 2015, where he instructs Norco College students in music technology, digital audio production, MIDI sequencing, synthesis, and the operation of digital audio workstations including Ableton Live and Pro Tools. Outside of the classroom, Mr. Eastwood has done freelance work as an audio editor, sound designer, and composer, specializing in sound and music for video games and electronic media. He also served at Titan Communications, the digital

media center at California State University, Fullerton, as General Manager of Titan Radio and as TV and Radio Station Production Coordinator. Mr. Eastwood holds operator-level certification in Pro Tools from Avid. He has studied game audio at Norco College, holds a Bachelor of Music Composition and a Bachelor of Arts in Radio, TV and Film from California State University, Fullerton, and currently pursues a Master of Music in Music Technology from the University of Valley Forge in Phoenixville, PA.
