

The MAP Initiative is scaling up with the new MAP 2022 Cohort of 52 California Community Colleges.

Beginning in February 2022, Cohort colleges will start using the platform to match their college courses with credit recommendations from ACE and other credit recommending bodies. Once approved by discipline faculty, articulated course credits may be awarded and transcribed.

The mission of the Cohort is to increase equitable access and completion by making it normal and expected for all military (and other) students to receive all the credit they deserve so they can achieve all their educational goals with existing military (or financial aid) benefits.

Colleges of the 2022 MAP Cohort

Antelope Valley	East Los Angeles	LA Southwest	Pasadena City
Bakersfield	El Camino	LA Trade Technical	Porterville
Berkeley City	Folsom Lake	Los Angeles Valley	Riverside City
