Norco College is currently vetting candidates for its STEM Student Ambassador program, for employment to begin fall semester of 2017.

Enthusiastic, motivated, creative individuals will reach out on campus, in the Corona Norco Unified School District, and out to the community to provide services, raise public awareness, to represent and to promote the diverse opportunities and innovative services available through the Title III HSI STEM² Grant.

Science, technology, engineering, and mathematics offer the hottest, best paying, and most in-demand careers available, both today, and for the foreseeable future. At a time when there is a growing deficit of people qualified to enter these profoundly needed professions, Norco College STEM program's mission is to prepare fresh, young minds for careers in these fast-growing, rewarding, and desirable fields.
