### Career Information

Websites to help you dig deeper into careers in Architecture

[Arch Careers](#): We inspire and educate the industry by offering hundreds of courses each year.

[Architecture Careers](#): Learn about the history of civilizations, from the ancient to the most recent and see how the architecture of those societies reflected and influenced the daily life of those civilizations.

[Pathways to Architecture](#): Architects licensed professionals trained in the art and science of the design and construction of buildings and structures that primarily provide shelter.

[Art Source](#): The content is diverse and includes pointers to resources around the net as well as original materials submitted by librarians, artists, and art historians, etc.

[The Art Project](#): We try to provide a concise overview of each career, as well as a little information about what each type of artist does.
