

**Student Services Program Review Data**  
Norco College

Jaime Rodriguez  
Specialist, Institutional Research

The purpose of this report is to show the demographic background, success rates, and term to term persistence of students that participate in student services at Norco College.

Fall 2011 was the term used to examine demographic background data (gender and ethnicity<sup>1</sup>)<sup>2</sup> and success rates. The term to term persistence data examines the persistence of students from Fall 2010 to Fall 2011 and Spring 2011 to Fall 2011.

SSS Rise student records were only available for Fall 2011. Hence, no term to term persistence tables and charts were created for the SSS Rise section.

Referential files were used to obtain the data included in this report. Students that received a grade of a “UG” (ungraded) were excluded from the data used for this study.

Success is a grade of A, B, C, or P. The success rates were obtained by dividing the number of successful grades by the total number of grades obtained by students (successful and non-successful).<sup>3</sup> Only students that enrolled and received a grade were included in the data for this report.

Students that completed a degree or certificate between 2000 and 2011 were excluded from the data used to develop the term to term persistence numbers (Fall 2010 to Fall 2011 and Spring 2011 to Fall 2011).

CalWorks student records were not available for Fall 2010. Hence, term to term persistence tables and charts ranging from Fall 2010 to Fall 2011 were not created for the CalWorks section.

“Unknown/non-respondent” students (in terms of gender) were excluded from the data used to develop the demographic tables, but were still included in the data used to develop success rates and term to term persistence tables/charts.

The data used to create the demographic tables for the student service programs is restricted to students that only enrolled at Norco College. However, the data used to develop success rates and term to term persistence tables/charts for the student service programs derives from data in which students could have been enrolled at any of the three colleges. Finally, any Norco

---

<sup>1</sup> In terms of ethnicity, “Other” students consist of those who identified themselves as Native Hawaiian, Pacific Islander, Two or more races, or that were unknown/non-respondent.

<sup>2</sup> This applies to all the student services sections in this report.

<sup>3</sup> A small number of duplicate records were found in the data used to develop success rates. The duplicate records were excluded from the data used for this study.

College data in any of the sections of the report is restricted to students that only enrolled at Norco College.

### Extended Opportunity Programs and Services (EOPS) - Norco College
