MAP Customer  
Success Manager

**Brook Goins**  
MAP Customer  
Success Manager

# Agenda

- Recent Meetings with College Teams and Senates
- [Resources, Laws, Policies, and Links](#)
- Veteran Student Intake Enhancements
- Veteran Self Access Module demo and input

# Initiative Activities

- Meeting with Local College Senates (resource sheet)
- Share Slide Decks and Materials with Cohort Colleges
- MAP Initiative website coming soon
  - Shared Materials can be housed there

# Student Intake Enhancements

- Create Articulations in module
  - Saves time and allow SCOs, Counselors, or Evaluators an easy process to apply credits to student's MAP records and review potential articulations on the fly.

# Veteran MAP Search Purpose

- To provide service members of any status (veteran, active, reservist) the ability to view MAP colleges that offer college credits by inputting their military occupation (MOS, AFSC, or Rating) or ACE ID.
- Military students have the option to upload their Joint Services Transcript (JST) and obtain a report of eligible and potential credits.
- Allows current and potential students to contact their School Certifying Official to request a review of their MAP credits.
- Allows college personnel to respond to needs of regional veterans seeking access and CPL at their college.
- Allows student to see all available MAP credits in their region.

# MAP Search Use

- Colleges may choose to promote the MAP Search feature in order to attract new students to particular programs.
- Google Earth college and military base locations with integrated MAP credits and college profiles.
- Allow local recruiters to show new recruits the college credits they may qualify for based on their potential occupation.
- Allows Education Officers working with active duty military to show the college credits they may qualify for based on their potential occupation.

# Upcoming MAP Search Enhancements

- Show Credit Recommendations that have no articulations. This will help students and personnel focus on meeting student needs.
- Automatically attach student's Potential College Credit report when contacting SCO for review.
- Veteran outreach module will allow college personnel to do outreach to regional veterans and those who upload their JST into MAP.
- Simplified Student MAP Credit Report
- Colleges may choose to promote the MAP Search feature in order to attract new students to particular programs.
- Integrate in the MAP Outreach feature information pulled from the MAP Search feature (e.g., JST uploads and requests for appointment or review).
