- Most people with thoughts of suicide don't truly want to die, but are struggling with the pain in their lives. Through their words and actions, they invite help to stay alive. SafeTALK-trained helpers can recognize these invitations and take action by connecting them with life-saving intervention resources.
- safeTALK is for community members such as: non-clinical staff, clergy, volunteers, parents, youth ages 15 and older, teachers, law enforcement, and others working with the public at large that want to make a difference.
- This **FREE** training includes all materials!
- **Pre-registration is required and space is limited.**
