O. Discussion items:

- a. Early Enrollment impact on college course catalog. Brian attended a meeting to discuss the options on how early enrollment can be done and what changes need to be made. Dr. Lee spoke about the goal is to allow students to register early by two terms or more. West Kern College has been doing it for two years now. The goal is to do a one year registration. The VP's were looking to do an early registration of one year by April 2020. In April 2019 Norco college will open registration to have a WIN/SPR2019 and SUM/FAL20. The issue is when we have to finish the catalog in order to do multiple registration. Right now, to start with SUM/FAL combination and then WIN/SPR combo, but the issue is when we need to finish the catalog in order to have multiple terms registration. At one point, we must freeze the catalog. In order to

make that happen we would need to create a two year course catalog (2020-2022). So we need an April 19, 2019 is the deadline in order to prepare for a two year course catalog. The deadline to submit new courses is April 2019. Then to create a course catalog every other year. Any revisions will be reflected in the catalog addendums but we need to determine what we will allow. For example, new programs can be applied as long as it doesn't impact an existing program that a student is already registered in. Chaffee is currently doing two terms at a time, and is moving towards a year so this is possible.

- b. Curriculum chair nomination for the next two years. The nominations take place on May 8th and the final vote is May 22nd.

Next Meeting: May 8, 2018

Statement of Purpose

The curriculum committee, a sub-committee of the academic senate, has two primary purposes: to review and approve new curriculum including new courses, course modifications, new programs and program modifications, and to review and approve the curriculum approval process. The college curriculum committee is the sole approving body for Norco College only curriculum. For district shared curriculum it has one vote in the district curriculum committee. The curriculum committee is also responsible for keeping abreast with state mandated curriculum changes and reporting those changes to faculty. Committee members report on curriculum at their department meetings and solicit suggestions and recommendations when needed.

Proposal Form for Revision to the Associates Degree Patterns

RIVERSIDE COMMUNITY COLLEGE DISTRICT

DATE OF REQUEST: December 6, 2016

FACULTY MEMBER SPONSORING PROPOSAL: Gregory E. Burchett

DISCIPLINE COORDINATOR SUPPORTING PROPOSAL: Barbara Moore

RATIONALE FOR ANY PROPOSED CHANGE TO DEGREE PATTERN:

- Life sciences, through extensive program review, has re-designated many of its courses. For instance, human anatomy and physiology courses were designated as AMY courses, and are proposed to be now designated as BIO courses. The same principle applies to health science, and microbiology courses.
- Life sciences has also consolidated much of its course inventory, and has developed new courses.
- In addition, this program review has also shed light onto courses that are currently not included as “required” which be included as such, and others that are currently listed as “required” but are more suited as “elective” options for students.

DEGREE AREA OF EMPHASIS (18 units): Please select only one of the following:

- Administration and Information Systems
- American Studies
- Communication, Media, and Languages
- Fine and Applied Arts
- Humanities, Philosophy, and Arts
- Kinesiology, Health and Wellness
- Social and Behavioral Studies
- Math and Science**

MODIFICATION TO DEGREE AREA OF EMPHASIS LANGUAGE REQUEST

- Existing degree AOE language (strikethrough portions are proposed to be deleted):
 - VII Additional Degree Requirements (3 units) – Page 44 of catalog.
 - A. Health Science 1 or completion of the DEH, EMS, ~~PA~~, RN or VN Program.
- Proposed degree AOE language (underlined portions are proposed to be added):
 - VII Additional Degree Requirements (3 units) – Page 44 of Catalog.
 - A. Health Science 1 or BIO 35 (Health Science) or completion of the DEH, EMS, RN or VN Program.
- Justification for language change:
 - HES 1 was re-designated by Life Sciences as BIO 35.
 - In a curricular review of this language, the Physician’s Assistant Program (PA) was discontinued, and should also be removed from this language.
 - NOTE – this addresses the current language in the catalog, which has been changed recently. This request applies to the new language being adopted.

COURSE DELETION FROM DEGREE AREA OF EMPHASIS REQUEST:

- Current Math and Science Degree “Required Courses” in life sciences (strikethrough indicates courses proposed to be deleted):

- ~~(AMY) 2A, Biology (BIO) 1, 1H, 2A, 5, 7, 8, 9, 11, 11H, 34, 36, Microbiology (MIC) 1.~~
- Proposed course(s) to be deleted from Math and Science degree “required” AOE:
 - AMY 2A - Survey of Human Anatomy and Physiology (re-designated as BIO 50A).
 - BIO 2A - Zoology (re-designated as BIO 2).
 - BIO 11 - Introduction to Molecular & Cellular Biology (re-designated as BIO 60).
 - BIO 11H - Honors Intro. to Mol. and Cellular Bio. (re-designated as BIO 60H).

 - Proposed courses to be deleted from Math and Science degree “elective” AOE.
 - AMY 10 Survey of Human Anatomy (re-designated as BIO 45)
 - AMY 2A Human Anatomy I (re-designated as BIO 50A)
 - AMY 2B Human Anatomy II (re-designated as BIO 50B)
 - BIO 2A Zoology (re-designated as BIO 2)
 - BIO 2B Zoology (re-designated as BIO 2)
 - BIO 11 Molecular and Cellular Biology (re-designated as BIO 60)
 - BIO 11H Honors Mol/Cell Biology (re-designated as BIO 60H)

 - MIC 1 Microbiology (re-designated as BIO 55)
- Justification for proposed deletion of course(s) from the “required” and “elective” sections of the Math and Science Degree AOE:
 - As part of our extensive program review, the biology discipline has re-designated the above courses. All existing course outlines were updated.

- Justification for proposed addition of course(s) to the degree AOE:
 - Proposed additions to “required” section:

- Courses marked with an asterisk (*) are current courses that are not part of the current degree pattern, and through program review should be included as options. These courses were either developed after the degree was formalized, or were left off during the development process inadvertently. Through program review, life sciences has determined that these courses should be included as options for required courses within the degree pattern.
- Life sciences has determined that a mixture of lecture only classes, as well as lecture with lab courses, best offer student's flexibility in course options towards the degree.
- Many life science courses that would reasonably fit into this category are left out intentionally. For example, a two-course sequence (i.e. BIO 60/61 which replaced BIO 11/12) only the first course in the sequence is listed as an option for the required course list.
- Proposed additions to "elective" section:
 - Courses marked with an asterisk (*) are current courses that are not part of the current degree pattern, and through program review should be included as options. These courses were either developed after the degree was formalized, or were left off during the development process inadvertently. Through program review, life sciences has determined that these courses should be included as options for required courses within the degree pattern.
 - Life sciences has determined that this elective course offering offers students tremendous flexibility in course options towards the degree.

Subject: Vote to add psych 50 to the A.A. Degree in Social and Behavioral Studies AOE

Folks,

Somehow I think we got sidetracked about adding psych 50 to the social and behavioral studies AoE. I have a yes from Ron, Clarence, and me, but cannot find any other confirmations as this suddenly seemed to go into including psych 48 for math and science AoE.

So, sticking strictly to the following request:

to have PSY 50 added to the A.A. degree in Social and Behavioral Studies area of emphasis for RCCD. Both the CSU and UC system accept PSY 50 to meet their "Social Sciences" and "Social and Behavioral Sciences" areas of CSU GE and IGETC.

Will the folks in the "To" line vote yea or nay so we can either kill it or send it forward to Ann Pfeifle? I will add those emails to a Word document to submit as evidence. We have only a short window to get the change into the catalog.

Best,
Travis

Travis Gibbs, Ph.D.
